***RESPONSES TO QUESTIONS:***

The following are questions and responses to questions posed by potential bidders. These responses shall take precedence over the issued plans and specifications. The cut-off date for questions is Friday, September 8, 2017 at 4:00 p.m.

- Item 4-1**      *Question:* Can the project bid date be moved to 9/14 from 9/7?  
*Answer:* The bid date has been changed to September 14, 2017 at 2:30 p.m.
- Item 4-2**      *Question:* Can the days to complete the project be moved from 40 days to 60 to 80 days?  
*Answer:* The project construction time shall be changed from 40 working days to 60 working days.
- Item 4-3**      *Question:* Can we get the wage rate to use for this project?  
*Answer:* A copy of the current wage rates is attached.
- Item 4-4**      *Question:* Would a vertical pivot gate be acceptable, electrical or hydraulic?  
*Answer:* No
- Item 4-5**      *Question:* Grading Spec Section 04-2.1 are we required to take out berms, or fill in ditches, and make it level, where the new fence goes? I noticed some areas there is not 5 ft of room on the outside, or 10Ft inside the fence, without some major excavation of berms slopes, ditches, utilities. Please clarify what is required? Some areas will require extensive grading. Can the dirt from auguring the fence post holes be spread out along the fence line?  
*Answer:* Grading as called for in the plans and specifications will be required. Soil from augering post holes can be used for constructing required embankment.

- Item 4-6**      *Question:* Please clarify what is meant by a temporary access road? Does the temporary access road have to be removed after the project?  
*Answer:* Graded area 10 feet inside and 5 feet outside the fence line. Can leave soil in place, but must grade smooth and place strippings on top of finished grade.
- Item 4-7**      *Question:* Can the entire existing fence be removed in the winter time?  
*Answer:* No.
- Item 4-8**      *Question:* Can the entire existing fence be taken out at once, without installing temporary fence after the grazing season?  
*Answer:* No.
- Item 4-9**      *Question:* Is temporary fence required everywhere the existing fence is taken out, until the new fence is finished?  
*Answer:* Contractor shall use existing fence, new fence, or temporary fence to prevent unauthorized persons, vehicles, or wildlife from entering the airport. Temporary chain link fence shall be used around the terminal area. Temporary or existing fence shall be used along the north, northwest, and northeast property lines to prevent cattle from entering the airport property. If no fencing exists, contractor shall post a flagger to prevent unauthorized persons, vehicles, or wildlife from entering the airport. Temporary fence or flagger will not be required along Highway 395. Existing fence along Highway 395 shall only be removed 300 feet ahead of new fence installation.
- Item 4-10**     *Question:* Can the new fence be installed, in an adjusted location inside the current fence line, so temporary fence isn't required on the entire project?  
*Answer:* No.
- Item 4-11**     *Question:* Is 10-foot spacing adequate because of the snow loads, should it be changed to 8-foot spacings?  
*Answer:* The spacing of posts in the entire fence line shall be changed from 10 feet to 8 feet.
- Item 4-12**     *Question:* Is the contractor responsible for one-year warranty, or maintenance from damage from any snow, or snow plows, or wrecks on the fence or gates?  
*Answer:* Contractor is responsible for one-year warranty on materials, operation, and installation.
- Item 4-13**     *Question:* Page 4 on the drawings, Sheet note 11. Is the contractor still required to install new monuments per the specs? Does the contractor need to survey the corners and offsets, or is the current survey all we need for the entire project?  
*Answer:* Contractor is required to install offset corner monuments, as shown in the detail on the plans, when existing corner monument will be destroyed by new fence post foundation. Existing corner monuments shall be protected from damage. Surveys shall only be required if offset monument cannot be accurately located otherwise.

- Item 4-14**      *Question:* What is the cure time before the new chain link can be installed, on the new fence posts?  
*Answer:* 1,500 psi for concrete is required before any chain link fence is installed.
- Item 4-15**      *Question:* Can the project start in August after the grazing season to eliminate temp fencing needs?  
*Answer:* The project shall start in May or June. Temporary fencing is required.
- Item 4-16**      *Question:* On page 4 on the drawings. The existing plexi glass structure, the conduit is mounted on top of the fence, does new conduit need to be installed underground, or can we bury the current conduit underground at that location?  
*Answer:* Contractor shall install new buried conduit as shown on the plans.
- Item 4-17**      *Question:* Do the new cameras, and gates integrate with an existing system?  
*Answer:* No. There is no existing system.
- Item 4-18**      *Question:* Do the cameras and gates need to be controlled on one system, touch screen push buttons?  
*Answer:* Cameras and gates do not need to be controlled on one system.
- Item 4-19**      *Question:* Where is the control room for the cameras and gates?  
*Answer:* The control room is located in the Airport Office.
- Item 4-20**      *Question:* Is the west gate controlled from inside the same location as the east gate?  
*Answer:* Yes.
- Item 4-21**      *Question:* Do we have to submit the entire specification book?  
*Answer:* No. The bidders shall submit Appendix B, Proposal and Contract Booklet (Bid Form Package), a copy of which is attached.
- Item 4-22**      *Question:* Can the requirement for turnbuckles at tension wires be deleted?  
*Answer:* No
- Item 4-23**      *Question:* Will the chain link fence have top tension or top rail?  
*Answer:* Top rail at brace posts as shown on the plans. Top tension wire elsewhere as shown on the plans.
- Item 4-24**      *Question:* Can we use truss rod tighteners in lieu of the turnbuckles?  
*Answer:* Yes
- Item 4-25**      *Question:* Can we get geotechnical reports or drawings?  
*Answer:* Geotechnical data are available.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at [www.dol.gov/whd/govcontracts](http://www.dol.gov/whd/govcontracts).

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

-----

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

#### Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or "UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

#### Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

#### Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- \* an existing published wage determination
- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a position on a wage determination matter
- \* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations  
Wage and Hour Division  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

The undersigned bidder declares that bidder has carefully examined the Plans and Specifications, Instructions to Bidders, Special Provisions, Contract Form and Bond Forms including Addenda No.(s)\_\_\_\_\_ to the project described above.

The work for which this proposal is submitted is for construction in accordance with the special provisions (including the payment of not less than the State general prevailing wage rates or Federal minimum wage rates) the project plans described below, including any addenda thereto the contract annexed hereto, and also in accordance with the Federal Aviation Administration Advisory Circular 150/5370-10G, "Standards for Specifying Construction of Airports," the California Department Transportation Standard Plans, dated June 2015, the Standard Specifications dated June, 2015, and the Labor Surcharge And Equipment Rental Rates in effect on the date the work is accomplished.

The undersigned agrees that he/she will order all materials and equipment under this contract and will commence work within ten (10) days after receiving written notice to proceed and that he/she will complete the work within 40 working days of written Notice to Proceed.

The undersigned further agrees that should he/she fail to complete any segment of work in the time specified, he/she will pay liquidated damages to the Town as prescribed in these specifications.

The special provisions for the work to be done are dated and entitled:

The project plans for the work to be done are dated and entitled:

Bids are to be submitted for the entire work. The amount of the bid for comparison purposes will be the total of all items for the bid schedule.

The bidder shall set forth for each unit basis item of work a unit price and a total for the item, and for each lump sum item a total for the item, all in clearly legible figures in the respective spaces provided for that purpose. In the case of unit basis items, the amount set forth under the "Item Total" column shall be the product of the unit price bid and the estimated quantity for the item.

In the case of a discrepancy between the product of the "Estimated Quantity" and the "Unit Price" with the "Item Total", the product of the "Estimated Quantity" and the "Unit Price" shall prevail and the figure shown as the "Item Total" shall be adjusted accordingly. In the case of a discrepancy between the sum of the figures in the "Item Total" column (adjusted per the previous sentence, if necessary) and the amount set forth as the "Total Bid Amount", the sum of the figures in the "Item Total" column shall prevail and the amount shown as the "Total Bid Amount" shall be adjusted accordingly. In case of conflict between words and numerals, the words, unless obviously incorrect, shall govern, except as provided in (a) or (b), as follows:

(a) If the amount set forth as a unit price is unreadable or otherwise unclear, or is omitted, or is the same as the amount as the entry in the item total column, then the amount set forth in the item total column for the item shall prevail and shall be divided by the estimated quantity for the item and the price thus obtained shall be the unit price;

(b) (Decimal Errors) If the product of the entered unit price and the estimated quantity is exactly off by a factor of ten, one hundred, etc., or one-tenth, or one-hundredth, etc. from the entered total, the discrepancy will be resolved by using the entered unit price or item total, whichever most closely approximates percentagewise the unit price or item total in the Town's Final Estimate of cost.

If both the unit price and the item total are unreadable or otherwise unclear, or are omitted, the bid may be deemed irregular. Likewise if the item total for a lump sum item is unreadable or otherwise unclear, or is omitted, the bid may be deemed irregular unless the project being bid has only a single item and a clear, readable total bid is provided.

Symbols such as commas and dollar signs will be ignored and have no mathematical significance in establishing any unit price or item total or lump sums. Written unit prices, item totals and lump sums will be interpreted according to the number of digits and, if applicable, decimal placement. Cent symbols also have no significance in establishing any unit price or item total since all figures are assumed to be expressed in dollars and/or decimal fractions of a dollar. Bids on lump sum items shall be item totals only; if any unit price for a lump sum item is included in a bid and it differs from the item total, the items total shall prevail.

The foregoing provisions for the resolution of specific irregularities cannot be so comprehensive as to cover every omission, inconsistency, error, or other irregularity, which may occur in a bid. Any situation not specifically provided for will be determined in the discretion of the *TOWN OF MAMMOTH LAKES*, and that discretion will be exercised in the manner deemed by the *TOWN OF MAMMOTH LAKES* to best protect the public interest in the prompt and economical completion of the work. The decision of the *TOWN OF MAMMOTH LAKES* respecting the amount of a bid, or the existence or treatment of an irregularity in a bid, shall be final.

If this proposal shall be accepted and the undersigned shall fail to enter into the contract and furnish the two (2) bonds in the sums required by the State Contract Act, with surety satisfactory to the *TOWN OF MAMMOTH LAKES* within eight (8) days, not including Saturdays, Sundays, and legal holidays, after the bidder has received notice from the *TOWN OF MAMMOTH LAKES* that the contract has been awarded, the PUBLIC WORKS DEPARTMENT may, at its option, determine that the bidder has abandoned the contract, and thereupon this proposal and the acceptance thereof shall be null and void and the forfeiture of the security accompanying this proposal shall operate and the same shall be the property of the *TOWN OF MAMMOTH LAKES*.

The undersigned, as bidder, declares that the only persons or parties interested in this proposal as principals are those named herein; that this proposal is made without collusion with any other person, firm, or corporation; that he has carefully examined the location of the proposed work, the annexed proposed form of contract, and the plans therein referred to; and he proposes, and agrees if this proposal is accepted, that he will contract with the *TOWN OF MAMMOTH LAKES*, in the form of the copy of the contract annexed hereto, to provide all necessary machinery, tools, apparatus, and other means of construction, and to do all the work and furnish all the materials specified in the contract, in the manner and time therein prescribed, and according to the requirements of the Engineer as therein set forth, and that he will take in full payment therefor the following prices, to wit:

3. Inserting a clause or condition in the covered transaction with the lower tier contract

If the FAA later determines that a lower tier participant failed to disclose to a higher tier participant that it was excluded or disqualified at the time it entered the covered transaction, the FAA may pursue any available remedies, including suspension and debarment of the non-compliant participant.
