Jennifer Burrows (JB) commented that she likes the contrast in materials and the color scheme.

Paul Chang (PC) added that he appreciates the use of colors and glass.

JB expressed concern about the location of the trash enclosure. She suggested moving it to one side so not to create snow removal complications and visual obstruction.

JB emphasized that snow removal should be prioritized.

PC and JB agreed and suggested letting PEDC decide if the placement is acceptable.

PC commented that the renderings show a grey roof, and the material board shows it as a brown roof. He asked that the renderings show the brown roof more accurately.

JB asked if the patio next to Good Life is exclusively for the restaurant. PV responded by saying that both patios would be for public use.

PC asked if the patio would be usable in the winter. PV responded by saying the patios would be seasonal.

JB and PC were supportive of the project and recommended it to PEDC.
