Geothermal Pipeline Maintenance Work Begins September 30 Near Shady Rest Park

- Geothermal pipeline maintenance work will begin Monday, September 30 on the Mammoth Ranger District in the area north of Shady Rest Park, north of Sawmill Road, and north of State Route 203.
- The estimated 8-week infrastructure maintenance is necessary to ensure continued safe and reliable operation of the geothermal energy system. Every effort will be made to minimize disruptions during the project. However, to accommodate the work zone and ensure public safety, temporary road and trail closures will be implemented. Clearly marked detour routes will be provided to allow pedestrians, cyclists, and vehicular traffic to navigate around the work areas including a detour for The Knolls Loop Trail north of Shady Rest Park.
- View the online [map](#) showing the temporary detour for the Knolls Loop Trail during the geothermal pipeline maintenance work. The public is advised to use caution and obey all construction signage when traveling through the area.

Emergency Alert Test Scheduled for October 7

- The Mono County Office of Emergency Management will be conducting a test of the emergency alert system on Monday, October 7, 2024, at 10:00am.
- These alerts are essential in notifying Mono County residents and visitors during emergency events related to weather, natural disasters, and public health crises. Mono County utilizes a cloud-based, public alerting and residential safety tool that allows the Office of Emergency Management to send geo-targeted urgent alerts to subscribers. Residents and visitors are encouraged to visit READY Mono to subscribe to the emergency alert system in advance of the test on Monday, October 7, 2024.
- Take the first step to becoming prepared by [signing up](#) for emergency alerts today!
