Call with questions! (760) 934-0791 Online Sales Close at 5 p.m. on Friday, December 13.

Winter Air Service To Mammoth Lakes Begins Dec. 19

Winter air service to Mammoth Lakes resumes on December 19, 2013. Offered by both United Airlines and Alaska Airlines, connections are available to Mammoth Yosemite Airport through Los Angeles, San Francisco, San Diego and Orange County.

The flight schedule for winter/spring 2013-14 will benefit several markets with additional daily flights, making it easier for snow enthusiasts to enjoy more time in the mountains. Daily non-stop service to and from San Diego will now be offered by Alaska with an earlier arrival scheduled for Saturday mornings. Weekend flight service on United out of Orange County will add a Monday and Thursday flight, allowing guests additional travel flexibility.

"The air travel experience to and from Mammoth Lakes is a breeze now," said John Urdi, executive director, Mammoth Lakes Tourism. "We have flights connecting through all of California's gateway airports. A traveler from almost anywhere on the east coast, the south, or in the midwest can now make it to Mammoth with one easy connection. It translates to more time on the snow and less time in the air."

United service also includes non-stop flights daily throughout the winter from San Francisco with a second flight four days per week. Daily non-stop Alaska Airlines service from LAX will resume November 15th with a second daily flight (other than Saturdays) beginning December 19th.

"The theme here with the added flights and adjusted times is ease. It's easier to get here, and to spend more time on travel days on the mountain," said Erik Forsell, Mammoth's chief marketing officer. "Once you land, you're basically here. The Mammoth airport is five miles outside of town, with free transport into town and it's a small airport so lines are minimal. You can be on the chairlift within an hour of landing in Mammoth, no problem."

Mammoth Lakes Yosemite airport is just 15 minutes from Mammoth Mountain Resort. Complimentary airport shuttles are available to all guests who book their stay at Mammothmountain.com or through 800.MAMMOTH.

For more information about the new flights on United or to reserve a seat visit www.united.com. For more information on Alaska Airlines service visit <http://www.alaskaair.com>. For more information about Mammoth Lakes go to <http://www.visitmammoth.com> and <http://www.mammothmountain.com>.

Winter Preparedness Tips from Mono County Sherriff

It's that time of year again! Yes, winter is slowly creeping upon us. As we all hope for that massive snow storm to strike and an epic winter season, the question remains, are you prepared for the season?

The Mono County Sheriff's Office would like to remind citizens and visitors alike to always be prepared for winter conditions, whether you are simply out and about in town on foot or driving across the many roadways of Mono County. Always have an emergency bag in your vehicle with extra food, water, warm clothing and shoes, and emergency supplies just in case you are stuck in your vehicle for an unknown amount of time as you try to reach your intended destination due to hazardous weather and road conditions. Remember, if you get stuck in your vehicle, stay in your vehicle until help arrives or you can safely continue on your journey. Remember to take some extra time while traveling, slow down, and obey all chain control requirements. Even those that are seasoned drivers on the Mono County roadways, please slow down and take your time when driving on the snowy conditions. This ensures your safety and those traveling around you.

Be aware of your surroundings while traveling the roadways and various communities of Mono County. Watch for snow removal equipment. This could be a large snowplow clearing the roadway or an individual shoveling a driveway or sidewalk. Both their safety and your own are important and will benefit from your awareness. Also, be aware of the various locations around Mono County that have parking restrictions during the winter months. Vehicles parked in the restricted areas will hinder necessary snow removal and be subject to citations and/or having the vehicle towed. These restrictions are in place and enforced for your safety and to allow proper snow removal for safer driving conditions for all.

Mono County utilizes what is known as the CodeRed Emergency Alert System when a critical incident or emergency situations takes place within the county. This system is a database of resident and citizen information for use only in critical and emergency situations to send critical communications from evacuation notices, to hazardous weather alerts, to missing children alerts. Your contact information remains private

and is only used to contact you for community emergency communications. To register for the CodeRed emergency alerts, log on to www.monosheriff.org – Resources – CodeRed. There is also a mobile app available for all Android and Apple phones.

For more information on winter preparedness and safety, please visit the Mono County Sheriff's Office Facebook page (www.facebook.com/pages/Mono-County-Sheriffs-Department/597961140216123) and listen to a panel radio interview, compliments of KMMT radio, on winter and emergency preparedness. The panel consists of members from the Mono County Sheriff's Department, Mammoth Lakes Police Department, Mammoth Lakes Fire Department, CERT, and California Highway Patrol. Let the experts give you the necessary tips you may be looking for to stay prepared this winter, and during other emergencies that could happen in our area!

The "Flu" Has Arrived

This week, public health received the first report of the season of a local who has a laboratory confirmed influenza infection. The individual has not traveled out of the area, and has not been hospitalized.

Seasonal flu activity is continuing to increase in parts of the US, and is expected to continue to rise in the coming weeks. Hardest hit areas include the South Central and Southeast regions of the country, especially Mississippi, Texas, Alabama, and Louisiana. California is experiencing the expected low levels thus far.

Nationwide, there have been 3 influenza-associated pediatric deaths so far. Last year, there were 169 pediatric deaths in children younger than 18 years of age. Almost half of children who are hospitalized or die from complications of influenza have no identified underlying medical conditions! These deaths are a somber reminder of the danger that flu poses to even healthy children.

This week (Dec 8-14) happens to be National Influenza Vaccination Week. Getting an annual flu vaccine remains the single most effective way for you to prevent the flu and its potentially serious complications. Flu vaccine can reduce flu illnesses, doctor's visits, missed work or school due to the flu, as well as prevent flu-related hospitalizations and deaths for yourself, your family, and your community. Thus far, the vaccine is a perfect match for the strains of influenza that are circulating.

We want to highlight several points:

- Flu vaccine is recommended for everyone older than 6 months of age – that includes you!
- Getting the vaccine is especially important for children younger than 5 years of age and children of any age with an underlying medical condition like asthma, a neurological or neurodevelopmental disorder or immune suppression. In addition, vaccine is especially important for people who come in contact with high risk children.
- Pregnant women should all get the flu vaccine (in any trimester), as they are more likely to become seriously ill with the flu, and have a greater chance for serious problems for their unborn baby, including premature labor and delivery.

- Since babies under 6 months of age cannot get a vaccine, pregnant mothers, and all caregiver's and close contacts (Dad's, siblings, grandparents, and babysitters) should be vaccinated to protect the baby.
- An egg free vaccine is available this year for those persons with severe egg allergies.

If you have not gotten your flu vaccine yet this season, now is the time! It will take about 2 weeks for protection to develop. Vaccine is offered locally at doctor's offices, clinics, pharmacies, and the health department. Do yourself, your family, and your community a favor – get a flu vaccine before the holidays!

Edison Theatre Hosts: Every Christmas Story Ever Told (And Then Some!)

Every Christmas Story Ever Told (And Then Some!) starts with Scrooge and goes downhill from there—like a skier on fresh powder. Part vaudeville, part Complete Works of William Shakespeare...Abridged, Every Christmas Story Ever Told... is a fast, furious, and slightly irreverent look at the holiday classics and traditions we all remember. From Frosty to Rudolph and the Grinch to It's A Wonderful Life, no pop culture holiday icon is spared in this whirlwind of holiday merriment. Throw in a slew of carols and you have a non-stop holiday entertainment that will have you rolling in the aisles.

"When my Artistic Council and I were deciding on this year's Christmas show we ran the gamut of options", stated Artistic Director of the Mammoth Lakes Repertory Theatre, Shira Dubrovner. "We've done the traditional stories and they were great. But we thought we'd look for something a bit different and funny and fun. Then we discovered this show." Every Christmas Story Ever Told is being directed in LA by Drina Durazo, a friend and fellow director of Dubrovner's from the Group Repertory Theatre. "I'm excited to have Drina bring this show and this cast to Mammoth. I saw a rehearsal recently and they are all bringing their 'A' game. Locals may remember two of the actors from Black Box Theatre productions of Greater Tuna and The Bible-the Complete Word of God (Abridged)—Mark Atha and Brian Stanton. They're joined by another gifted actor, Bert Emmett. It'll be great to have them back in Mammoth."

Every Christmas Story Ever Told opens December 12th and runs Thursdays through Saturdays at 7:00 pm and Sundays at 4:00 pm through December 23. Make attending a show at the Edison Theatre over the holiday part of your new Christmas tradition. This show is recommended at PG-13 and there is spoiler alert—if you believer in Santa Clause you might not like this show—so twenty-something's beware!

FACT SHEET:

WHAT: Every Christmas Story Ever Told (And Then Some!)
WHEN: December 12-22, 2013; Thu-Sat @ 7pm, Sun @ 4pm
WHERE: Edison Theatre, 100 College Parkway
HOW MUCH: \$20 Adults/\$18 Students and Seniors/\$12 Children (PG-13)
BUY TICKETS: www.EdisonTheatre.org

Additional Snow Needed for Shady Rest, Obsidian Dome Nordic Trails and Snowmobiling Trails

Recent snowstorms have left the ground covered but are not providing the snow base required to use grooming equipment on the public Nordic and snowmobile trails on the Mammoth and Mono Lake Ranger Districts of the Inyo National Forest. Upon

sufficient snowfall, grooming of the Shady Rest and Obsidian Dome Nordic Trails and the Groomed Snowmobile Trail System will begin.

This winter, Friends of the Inyo, a local non-profit organization, has received a Measure R grant from the Town of Mammoth Lakes to provide grooming services for the Shady Rest Nordic Trail system in partnership with the U.S. Forest Service.

The Nordini groomer will be back in action and operated by Friends of the Inyo providing the public, free of charge, over five miles of groomed trails for Nordic users compliments of local Measure R funds. Roads within the Old and New Shady Rest Campground and along the paved bike trail will be groomed through the winter as snow conditions allow. The Nordic trails are part of the Mammoth Lakes Trail System and will be groomed five days a week by Friends of the Inyo, with additional grooming by the U.S. Forest Service as needed. Users may access the Shady Rest Nordic Trail system by parking in the front parking area (closest to Highway 203), adjacent to the Mammoth Lakes Welcome Center. A groomed entrance to the trail system begins directly across from the Welcome Center.

Please remember, dogs must be on leash at all times and owners are responsible for removing dog waste from the trail system. Owners of dogs off leash or disposing of dog waste irresponsibly may be issued a citation.

The U.S. Forest Service is waiting for additional snow accumulations to begin grooming the California Department of Parks and Recreation funded snowmobile trail system and the Obsidian Dome Nordic trails. With a shallow, low density snowpack, snowmobilers should use caution and refrain from traveling in areas where snow depths are minimal. Snowmobile users are responsible for knowing all regulations and understanding closure area boundaries.

Maps and information on winter recreation in the Mammoth Lakes area and on the Inyo National Forest can be obtained at the Mammoth Lakes Welcome Center, open daily 8:00AM to 5:00PM, by visiting the Inyo National Forest website, or by calling (760) 924-5500.

Inyo National Forest Announces the Release of Draft Assessment Report

The Inyo National Forest has released the forest's Draft Assessment Report for public review. The assessment is the first phase of the process to revise the 1988 Inyo National Forest Land and Resource Management Plan (Forest Plan or plan).

The Draft Assessment Report summarizes the findings of the topic papers including forest resource conditions and trends, social and economic conditions, and recreation opportunities and access. The assessment will frame the Need for Change as the forest develops a revised plan and evaluates the environmental effects of the proposed plan as required by the National Environmental Policy Act.

The Inyo National Forest is one of three National Forests in California revising its Forest Plan using the 2012 National Forest System Planning Rule. The forests will complete plan revision through a joint Environmental Impact Statement (EIS) starting in 2013.

The Draft Assessment Report is available for review through December 16, 2013 on the forest's webpage: <http://www.fs.fed.us/nepa/fs-usda-pop.php?project=40601>. Input can be provided via or email (comments-pacificsouthwest-inyo@fs.fed.us) or by mail (Forest Plan Revision, Inyo National Forest, 351 Pacu Lane, Suite 200, Bishop, CA 93514).

A public meeting to review the Draft Assessment Report is scheduled for 6:00 pm, December 5, 2013 at the Supervisor's Office, 351 Pacu Lane, Bishop CA. A webinar is also scheduled for December 11 at 2:00 pm. Please call or email Deb Schweizer (debraaschweizer@fs.fed.us, 760-873-2427) to sign up for the webinar.

More information about Forest Plan Revision is available at <http://www.fs.usda.gov/main/inyo/landmanagement/planning>

Recreation Department Highlights

Mammoth Ice Rink Now Open!

The Mammoth Lakes Ice Rink on 416 Sierra Park Road (adjacent to the library) is open daily at various times for public skating and pick-up hockey. Come join the fun on our municipal sheet of ice that offers music, evening fire-pits, Friday night learn-to-skate lessons, rentals and skate sharpening service, drinks, snacks, youth hockey clinics and pick-up games all on refrigerated and professionally maintained ice. Get your 6th visit free with the purchase of the 5 SKATE PASS. For more information stop by, call (760) 934-2505, or visit www.mammothicerink.com.

Youth Ice Hockey At The Mammoth Ice Rink

Don't miss out on Mammoth Lakes Lakers Youth Hockey programming at the Mammoth Ice Rink this winter!

Beginner Youth Stick Time: Monday and Wednesday Nights between 5:15 - 6:45 p.m. Learn to Pass, Shoot and Skate like a hockey player. Full pads not needed, but recommended.

Youth/Junior Hockey Pickup: Monday and Wednesday Nights from 5:15 to 7:00 p.m. and Saturdays between 9:00 a.m. -11:00 a.m. Any Questions or Inquiries please Email: Mammothyouthhockey@gmail.com.

Celebrate East Coast New Year's Party At The Ice Rink – Dec. 31

Come on out to the Mammoth Ice Rink on New Year's Eve and celebrate the New Year East Coast Style with us! This family friendly event is only \$5.00/person. Fee includes 2-hours of skate time (7:00 - 9:00 p.m.), skate rentals (some sizes are limited, feel free to bring your own skates) party hats, noise makers, marshmallow roasting and a sparkling cider toast at 9:00 p.m. Dress warm! The Mammoth Ice Rink has fire pits, new heaters, heated changing room, hot cocoa and snacks available for sale as well. For more information, please call the Recreation Department at (760) 934-8989 x 222 or the Ice Rink directly at (760) 934-2505 during operating hours.

Hot Shots Youth Basketball

Our local youth basketball program for 3rd-5th grade girls and boys has now commenced league play every Tuesday and Thursday nights at the MMS gym starting at 6:00 p.m. Well behaved spectators are welcome to come out and cheer on the teams. Currently in first place are the "Red Preppers", followed by "Mammoth Heat." Third and fourth places are held by the "Blue Crew" and "Mammoth Lakers."

Adult Coed Indoor Soccer League Begins Jan. 5

Team registration packets are now available now at the Recreation Department office located above Giovanni's in the Vons shopping center. We need a minimum of 4 teams, with 4 men and 1 female playing on the court at all times. Games scheduled every Sunday evening at the Mammoth High School gym from January 5 – March 30, 2014. Fee is only \$250/team.

Gymnastics/Tumbling Program Is Back!

Join Melissa (and Kari), our level 5 gymnastics coach here at the Mammoth Lakes Community Center for the following classes:

- * 3 yr. olds Saturday: 8:30 a.m. – 9:15 a.m.
- * 4-5 yr. olds Saturday: 9:15 a.m. – 10:00 a.m.
- * 5-8 yr. olds Saturday: 10:00 a.m. – 11:00 a.m.
- * 8-12+ yr. olds Tuesday: 6:00 – 8:00 p.m. (invitation only)
Friday: 4:30 – 6:00 p.m.
Saturday: 11:00 a.m. 12:15 p.m.

Five session punch card for \$60, drop-ins welcome at \$15 session. Want to try it out? Try your first session for free! Please call (760) 934-8989 x222 for more information or visit 'Mammoth Gymnastics' on Facebook.

Recreation Department Launches Online Registration

In an effort to improve customer service and streamline operations, the Recreation Department – compliments of Measure R, has partnered with the Active Network to provide 24/7 web-based activity and facility reservations. To begin, visit us online at www.mammothrecreation.com, click on the *Online Activity/Facility Reservations* tab and your first step is to **"Request Account."** All you need is an email and password. The system will allow you to register online for an activity, reserve a facility or request Measure R equipment...it's fast and easy! Please drop by the office or call us at (760) 934-8989 ext. 222 if we can be of assistance to you.

Mammoth Gateway Project Recognized With Prestigious Award

After three years of meticulous planning, indomitable fundraising and generous contributions from the entire community, the Mammoth Gateway Project is now complete and has been awarded the 2013 "Putnam Award for Excellence" from the League of California Cities.

"The Mammoth Gateway Community Project illustrates how cooperation between local, state and federal agencies as well as business and community volunteers can help make a lasting first impression for visitors in a town where the local economy is highly dependent on tourism," stated Elizabeth Tenney, Planning and Economic Development Commissioner.

A representative from The League of California Cities personally presented the award to the Mammoth Lakes Town Council and the project partners on Wednesday, October 16, 2013. This prestigious award was established in 1982 by the League of California Cities to recognize outstanding achievements made by cities that uniquely contribute to community residents and businesses.

The purpose of the Helen Putnam Award for Excellence is to promote the outstanding efforts and innovative solutions by city governments to:

- Improve the quality of life in local communities
- Implement efficiencies in service delivery and operations
- Provide services responsive to the local community

"The Town's award, in the category of City-Business Relations, highlights the unique cooperation between the public and private sectors to construct an iconic symbol representative of the rugged character of the region and resilience of the community," stated Jessica Morriss, Transportation Planner for the Town of Mammoth Lakes.

Spearheaded by long-time local and Planning and Economic Development Commissioner, Elizabeth Tenney, The League's award recognizes the collaborative partnership required to make the Gateway Project a reality. The Town would like to recognize the following local, state, and federal agencies, as well as volunteers and private sector donors, including: Inyo National Forest - Mammoth-Mono Ranger District, County of Mono, Mammoth Lakes Town Council, Town of Mammoth Lakes Public Art Fund, WalkerOne Creative Workshop, Woodward Architecture, Mammoth Mountain Ski Area, The Chadmar Group/Snowcreek Resort, Mammoth Community Water District, Mono County Superior Court, Mammoth Lakes Chamber of Commerce, Mammoth Lakes Tourism and the many other donors (large and small) who contributed money and expertise.

The Gateway monuments, which were completed in the Spring of 2013 after almost three years of planning, design, and construction, have become a source of pride for the community and clearly demonstrates that Mammoth Lakes is still moving forward. Designed and built to last a hundred years or more, the Gateway to Mammoth Lakes became a popular visitor photo opportunity even before it was finished.

The Gateway's north side on US Forest Service land, with the cooperation of Jon Regelbrugge, District Ranger, Inyo National Forest, has been landscaped with native

plant seed and boulders. An abstract graphic of mountain slopes in raw steel is being fabricated by Mammoth Mountain Ski Area and will be installed on the west side of the north monument. The graphic complements the John Muir quote departure message "Going to the mountains is going home. See you again soon." on the south monument.

Around the south monument, plant varieties in the drought-tolerant demonstration garden have been labeled for ready reference by homeowners, condo managers and landscapers. The Gateway demonstration garden was commissioned by Mammoth Community Water District and designed and installed by Bob Weiland, Weiland & Associates, Inc. Mono County Superior Court is supplying the water from the Court's dedicated irrigation meter.

Additional information regarding this prestigious award by the League of California Cities can be viewed online at: www.cacities.org/Top/Partners/Helen-Putnam-Awards.aspx, or by contacting Jessica Morriss, Transportation Planner for the Town of Mammoth Lakes at (760) 934-8989 ext. 225.

SBA Offers Disaster Assistance to California Small Businesses Economically Impacted by the Rim Fire

The U. S. Small Business Administration (SBA) is offering low-interest working capital federal disaster loans to small businesses economically impacted by the Rim Fire that began on August 17, U. S. Small Business Administration (SBA) Acting Administrator Jeanne Hult announced today. SBA acted under its own authority to declare a disaster in response to a request SBA received from Gov. Edmund G. Brown's designated representative, Mark Ghilarducci, Director of the California Governor's Office of Emergency Services, on September 24, 2013.

The disaster declaration makes SBA disaster assistance available in Mariposa and Tuolumne Counties and the neighboring counties of Alpine, Calaveras, Madera, Merced, Mono and Stanislaus.

"The U. S. Small Business Administration is strongly committed to providing the most effective and customer-focused response possible to assist California's small businesses with federal disaster loans. We will be swift in our efforts to help these small businesses recover from the financial impacts of this disaster," said Acting Administrator Hult.

"Beginning Tuesday, October 1, SBA customer service representatives will be on hand at the following SBA Disaster Loan Outreach Centers to help small businesses impacted by the Rim Fire," said SBA's Fresno District Director Carlos Mendoza. "SBA representatives will answer questions about SBA's Economic Injury Disaster Loan program, explain the application process, and help each business owner complete their application," he continued. The centers will be open on the days and times indicated. No appointment is necessary.

Mono County
Lee Vining Community Center
296 Mattley Avenue
Lee Vining, CA 93541

Open: Tues. Oct., 1 & Wed. Oct. 2
Hours: 9:00 a.m. to 6:00 p.m.

"Small, nonfarm businesses, small agricultural cooperatives, small businesses engaged in aquaculture and most private, nonprofit organizations of any size may qualify for Economic Injury Disaster Loans (EIDLs) of up to \$2 million to help meet financial obligations and operating expenses which could have been met had the disaster not occurred," Mendoza said.

"These loans may be used to pay fixed debts, payroll, accounts payable and other bills that can't be paid because of the disaster's impact. Disaster loans can provide vital economic assistance to small businesses to help overcome the temporary loss of revenue they are experiencing," Mendoza added.

Eligibility is based on the financial impact of the disaster only and not on any actual property damage. These loans have an interest rate of 4 percent for small businesses and 2.875 percent for private, nonprofit organizations with terms up to 30 years, and are restricted to small businesses without the financial ability to offset the adverse impact without hardship.

Applicants may apply online using SBA's secure Web site at <https://disasterloan.sba.gov/ela>.

Disaster loan information and application forms are also available from SBA's Customer Service Center by calling (800) 659-2955 or e-mailing disastercustomerservice@sba.gov. Individuals who are deaf or hard of hearing may call (800) 877-8339. For more information about SBA's disaster assistance programs, visit <http://www.sba.gov/disaster>.

The deadline to return economic injury applications is June 26, 2014.

Town Amends Mammoth Lakes Municipal Code Regarding Woodstove Inserts

On March 20, 2013, Town Council adopted a resolution amending the Town ordinance establishing standards for new and reconstructed woodstove inserts. Over the last several decades, large numbers of open fireplaces in town have been modified by the installation of woodstove inserts. However, neither the Town nor the fire district nor the woodstove insert manufacturers have had clear and consistent standard governing how the inserts must be installed. The result has been installations that have been demonstrated to be unsafe by a number of fires occurring around woodstove inserts in town.

The fire district and Town staff jointly developed installation standards for woodstove inserts, which are contained in the new ordinance. The ordinance also contains a list of approved woodstove insert manufacturers, but allows contractors and homeowners to request the building official to add other manufacturers.

The amended ordinance would require all new woodstove insert installations to meet the new standards. Recognizing that reconstruction of existing woodstove insert installations can cost several thousand dollars, the ordinance does not require immediate removal and reconstruction of existing inserts. Instead, the ordinance requires nonconforming inserts to be removed or reconstructed upon sale of the residential unit, or by October 31, 2022 if no sale of a particular unit has occurred before then.

Because the woodstove insert installation standards constitute a local amendment to the requirements of the California Mechanical Code, the ordinance includes the specific findings necessary for such local amendments. The findings acknowledge that the unique climatic, geological, and topographical conditions in Mammoth

require these amendments. Please contact Town of Mammoth Lakes Senior Building Inspector, Johnny Goetz at (760) 934-8989 ext. 244 for additional information.

Mammoth Lakes Police Department Implementing Reserve & Volunteer Program

In an effort to off-set some of the impact resulting from the loss of 7 sworn officers, the Mammoth Lakes Police Department has been moving forward on developing Reserve and Volunteer Programs, and evaluating various forms of technology to help make the MLPD more efficient and effective. The following are some of the programs the MLPD is moving forward on:

RESERVE OFFICER PROGRAM

On February 6, the Town Council approved the establishment of pay scales for Reserve Officers. The pay will be:

- Level 1 Reserve - \$25/hour
- Level 2 Reserve - \$23/hour
- Level 3 Reserve - \$20/hour

Providing pay for Reserve Officers will make the MLPD competitive with other local agencies that have reserve programs and serve as a recruitment and retention tool.

Anyone interested in learning more about the MLPD Reserve Program should contact Sergeant Marc Moscovitz at (760) 934-2011

VOLUNTEER PROGRAM

Many police departments benefit from active volunteer programs where trained volunteers assist police personnel by staffing front counters, completing reports, and providing community patrols. Retired Sergeant Karen Smart has agreed to manage the MLPD's volunteer program. At some time in the future, information will be released about the types of volunteer work available and the selection criteria. Anyone interested in volunteering with the MLPD should be on the look-out for a news release announcing the start of the program.

TECHNOLOGY

The MLPD is moving forward with technological advances on several fronts. They include:

- An on-line reporting system where certain crimes can be reported on-line.
- An on-line crime and traffic report purchase program where victims of crimes and parties in traffic collisions can purchase copies of reports on-line.
- Access to surveillance cameras at the North Village.
- Surveillance cameras at the Volcom Brothers Skatepark.

The MLPD is also exploring other technology that will make the Police Department more effective in addressing crime, the fear of crime, and quality of life issues.

Free, Real-Time Property Information Now Available!

The Town of Mammoth Lakes and Mono County are proud to present ParcelViewer, the Town and County's official web-based property information system. This free, public, on-line service can be relied upon to provide convenient, accurate and up-to-

date information, based on the official Assessor's data-base. Use ParcelViewer to view and print customized parcel information and maps, including:

- Zoning Information
- Property Addresses
- Complex Names/ Condo Unit Numbers
- Parcel Lines*
- Valuation Data
- Acreage
- Aerial imagery of surrounding properties and more!

Visit Parcel Viewer today at <http://gis.mono.ca.gov/parcelviewer/>

California Mandates Recycling for Business and Multi-Family Residential Locations

A new State of California Bill (AB 341) directed by CalRecycle mandating commercial recycling in California goes into effect July 1, 2012. The Town of Mammoth Lakes will be providing education and outreach to help the community comply with the new regulations.

The goal of AB 341 is to increase the statewide recycling rates to 75% by 2020. Starting July 1 2012, businesses and public entities that generate four cubic yards or more of waste per week, including multi-family units of five or more will be required to recycle. The purpose of this new law is to reduce greenhouse gas emissions by diverting commercial solid waste to recycling efforts while expanding opportunities for additional recycling services and recycling manufacturing facilities in California.

Please use the following link for additional information provided by CalRecycle that addresses the "Frequently Asked Questions:"
<http://www.calrecycle.ca.gov/climate/Recycling/FAQ.htm>.

The Town of Mammoth Lakes (TOML), Sierra Conservation Project (SCP) and Mammoth Disposal (MD) are taking active steps to assist businesses and multi-family residences to comply with the new regulations.

Brian Robinette, owner of Sierra Conservation Project commented, "This is a big step in the right direction for recycling and diverting recyclables from our local landfills. The new regulation will give the extra incentive needed to make recycling programs a reality at all Mammoth Lakes business and residential locations."

The TOML, SCP and MD have been working together for several years to develop and grow recycling programs here in the Town of Mammoth Lakes.

Johnny Goetz, Town of Mammoth Lakes Senior Building Inspector states, "Now is a great time for local businesses to take advantage of the numerous recycling opportunities we have available in Town. Condominium complexes can also take advantage of the TOML and SCP's recycling programs which are currently providing start-up infrastructure to the complex at no cost - while supplies last."

The TOML and SCP have applied for additional grant money to continue to offset the start-up cost for multi-family and businesses here in town. Bear proof recycling containers are provided to participating condo complexes, and are serviced by SCP.

Pat Fenton, General Manager of Mammoth Disposal added, "Recycling is at the core of the company's goal of sustainability, and it's the core of our commitment to business owners and the Town of Mammoth Lakes to meet this mandate."

The following recycling programs are currently available within the Town of Mammoth Lakes:

- Commercial cardboard recycling
- Restaurant and bar programs
- Lodging and hospitality programs
- Business recycling
- Office recycling
- Residential recycling
- Aluminum, plastic, and glass
- E-Waste
- Used oil and batteries

Some of the benefits of recycling identified by CalRecycle are creating jobs in California, reducing greenhouse gas emissions, keeping valuable materials out of landfills, and creating a healthy environment for the community and future generations by recovering natural resources.

For more information regarding recycling programs and opportunities within the Town of Mammoth Lakes, contact Johnny Goetz at (760) 934-8989 ext. 244 or jgoetz@ci.mammoth-lakes.ca.us.

Transient Occupancy Tax (TOT) Frequently Asked Questions

Some of the most frequently asked questions about legal rentals and Transient Occupancy Tax (TOT) are:

1. What is a transient rental?

A transient rental is any unit that is occupied for the purpose of sleeping, lodging, or similar reasons for a period of 30 consecutive days or less in exchange for a fee or similar consideration.

2. Can I rent my unit as a transient rental?

Only some zones within the Town of Mammoth Lakes permit transient rentals. The following zones permit transient rentals:

- RMF-2 (Residential Multi-family 2)
- CL (Commercial Lodging)
- CG Commercial General)
- R (Resort, including master plan areas)
- SP (Specific Plan, including North Village and Clearwater)

This list is intended as a guide only. Although the above zones permit transient use generally, other regulations, such as those found in master plans, CC&Rs, or project conditions of approval may prohibit transient rental within a particular development. Generally, transient rental of single family homes is prohibited. A zoning map can be found on the Town's website.

3. What is transient occupancy tax (TOT)?

Transient occupancy tax, or TOT, is a 13% tax that is charged "for the privilege of occupancy of any transient occupancy facility." The tax is required to be paid to the operator of the transient occupancy facility at the

time the rent is paid. It is the operator's responsibility to remit the TOT to the Town.

4. Do I need to pay TOT?

If you are renting your unit as a transient rental, even if it is only for one weekend a year, you need to pay TOT. This includes single family homes and other units that are not permitted to rent nightly, but may be doing so illegally. TOT shall be remitted for each night the unit is rented.

5. Do I need a business tax certificate?

Yes, if you are renting your unit on a transient basis.

6. Do I need a transient occupancy tax certificate?

Yes. You are required to purchase a transient occupancy certificate for each rental unit to post in your transient rental property. This is included as part of Schedule E or F in the business tax certificate application.

7. What is the difference between a business tax certificate and a transient occupancy tax certificate?

Business tax is an annual tax and is required for all business activity. The transient occupancy tax certificate is a one-time purchase that is non-transferable. This certificate is required to be posted in your transient rental unit.

8. Do I need a business tax certificate if all of my rentals are handled through a reservation company?

If all of your rentals are handled through a reservation company, most reservation companies will purchase the transient occupancy tax certificate and collect and remit the TOT to the Town. You may wish to check with your reservation company to confirm that this is being taken care of. If you rent your unit by owner in addition to renting with a property management company, you are also required to obtain a separate business tax certificate and transient occupancy tax certificate.

9. How do I apply for a business tax certificate?

The Town's website contains information regarding business tax certificates, including an application for a business tax certificate: <http://www.ci.mammoth-lakes.ca.us/index.aspx?NID=182>. Transient Rentals fall under schedule F for condominium rentals and schedule E for hotels, motels, lodges, and campgrounds. This application can be mailed back to the Town, or submitted in person. The total cost for one unit is \$118.00 (\$65.00 application fee, \$5.00 planning review fee, \$25.00 fee to rent one unit, \$23.00 TOT certificate fee). Additional costs apply for additional units. Business tax certificates are required on or before the first day business commences; penalties will apply for late filings. If you have additional questions regarding this process please contact the Finance Department at (760) 934-8989 x245.

10. Do I have a business tax certificate?

To find out if you have a valid business tax certificate on file, please contact the Finance Department at (760) 934-8989 x245 or your property management company.

11. What is illegal rental activity?

Illegal rental activity is any rental activity that is not consistent with the Town's Zoning Ordinance, or any rental activity that is not compliant with the Transient Occupancy Tax Ordinance. This can include transient rental of units located in zones that prohibit transient rentals. It can also include transient rentals in a zone where it is permitted, but when the TOT is not remitted to the Town.

12. How can I report illegal rental activity?

If you suspect illegal rental activity, you may submit an anonymous tip via the Town's TOT hotline at (760) 934-8989 x275 or on the Town's website via the Transient Occupancy Tax information page. Please include any information that you have that would substantiate the claim, along with the property address and owner's name if you have it. You may also email tot@ci.mammoth-lakes.ca.us. Note that emails are not anonymous, however, staff will do its best to keep your information private.

13. Questions & Anonymous TOT Hotline

If you have questions about TOT enforcement, or if you would like to report suspicious activity or rental advertisements please contact our anonymous hotline. The Town will follow-up on any reports submitted. The Hot Line Number is (760) 934-8989 ext. 275 or email your information to: TOT@ci.mammoth-lakes.ca.us.

Register for CodeRED

Residents of Mono County can register their cell phones to receive emergency CodeRED (reverse 911) alerts from Mono County. This is a county public service available to all Mono County residents so please tell your friends and neighbors in Mono County that they can register for this service. CodeRED announcements are for personal notification and will not replace CERT CAHAN notification. Here is how to sign register/sign up using the INTERNET:

1. Go to monosheriff.org
2. scroll down left side panel to CodeRED community notification system;
3. click on it and follow directions.

Leash Law Reminder

Mammoth residents and visitors are reminded that the Town has a leash law, and it is a violation of the ordinance to allow your dog to run loose off of your property. While budget cuts eliminated the Animal Control Officer position, the laws pertaining to controlling your pets did not change, and you can still be cited by Mammoth Lakes Police Department officers if your dog is at large. The PD is currently receiving a large number of complaints from several neighborhoods, and will be targeting patrol time in those areas when possible to apprehend loose dogs and to cite their owners. In addition to the citation fine, you could also be charged boarding fees by Mono County Animal Control if we choose to impound your dog at the Whitmore Shelter.

At-large dogs are a traffic hazard, and even the most well behaved dog can bite if provoked. If your loose animal causes a traffic collision or injures/bites someone, you would likely be liable for damages, which could add up to thousands of dollars. Please respect your neighbors, AND your pet and obey the leash law.

Carbon Monoxide Detectors Save Lives

The Town of Mammoth Lakes has launched a community outreach effort to inform community residents that on July 1, 2011 many homes will be required to install carbon monoxide detectors.

The Federal Centers for Disease Control and Prevention estimate that carbon monoxide kills approximately 500 people each year and injures another 20,000 people nationwide. In an effort to prevent these accidental deaths and injuries, the California legislature enacted SB 183 (Lowenthal) which mandates owners of dwelling intended for human occupancy to install carbon monoxide devices in existing dwelling units having a fossil fuel burning heater or appliance, fireplace, or attached garage.

CO devices must be installed in all specified single-family dwellings by July 1, 2011. All other specified dwelling units must have CO devices installed by January 1, 2013.

The Office of the State Fire Marshal (SFM) has developed a list of certified CO devices that meet the requirement specified within the Carbon Monoxide Poisoning Prevention Act of 2010.

For a complete list of currently approved devices please visit the SFM's website at http://osfm.fire.ca.gov/licensinglistings/licenselisting_bml_searchcotest.php. Under the search categories provided select Carbon Monoxide Alarms and Carbon Monoxide Detectors for a complete list of devices.

Further details contained within the Carbon Monoxide Poisoning Prevention Act of 2010:

- Owners shall install CO devices in a manner consistent with building standards applicable to new construction for the relevant type of occupancy if it is technically feasible. See the 2010 California Building Code, Section 420.4, and the 2010 California Residential Code, Section R315.
- CO devices shall produce a distinct audible alarm.
- CO devices may be combined with a smoke detector, if the combination device meets all specified SFM listing and approval requirements.
- Violation of Health & Safety Code Section 17926 is an infraction punishable by a maximum fine of two-hundred dollars for each offense.
- A local enforcement agency shall provide the property owner a 30-day notice to correct.
- Local jurisdictions are authorized to adopt ordinances requiring CO devices if the ordinance is consistent with the requirement of this bill.

For a full list of this legislation's stipulations please review the Department of Housing and Community Development's Information Bulletin 2011-01 at <http://www.hcd.ca.gov/codes/shl/infobulls/IB2011-01.pdf>.

Town Outdoor Lighting Ordinance

In 2003, the Town implemented an outdoor lighting ordinance to eliminate light pollution and preserve views of our starry skies. The outdoor lighting ordinance was

adopted to encourage residents to administer a lighting system that not only promotes public safety and night-time ambiance but to maximize energy conservation. To eliminate glare and light trespass into neighboring properties and roadways, the outdoor lighting fixtures on your property should be shielded and re-directed to shine downward or changed out to a lower wattage. More information about responsible lighting can be found at www.crlaction.org.
