

TOWN OF MAMMOTH LAKES - DEPARTMENT OF PUBLIC WORKS

STANDARD PLANS

This manual and criteria shall apply to all public and private projects, public works, private roads, and grading design within the Town of Mammoth Lakes, which is subject to review by the Public Works Director.

This manual is not a text book or a substitute for engineering knowledge, experience, or judgment. This manual does not impose a standard of conduct or duty to the public. Instead, the methods and procedures contained in this manual should be reviewed by the engineer using them to determine applicability to the project on which he is working. Modifications or deviations from these standards are subject to approval by the Public Works Director.
