News from the Town Manager

Town Council Meeting – Dec. 3

The next regular meeting of the Mammoth Lakes Town Council has been scheduled for Wednesday, December 3, 2014 in Suite Z beginning at 6:00 p.m. Visit the [Streaming Media Archive](#) to review the previous meeting minutes or view the webcast Town Council meeting.

December Commission Meetings

Dec. 9 Recreation Commission Meeting, Suite Z, 2:00 p.m.

Official Town Of Mammoth Lakes Tree Lighting Ceremony & Community Food, Toy and Clothing Drive – Dec. 5

The entire community is cordially invited to attend the Official Town of Mammoth Lakes Tree Lighting Ceremony and to donate generously at the community-wide food and clothing drive on Friday, December 5, 2014 in the Footloose Sports and old Bank of America parking lot, as well as the toy drive taking place at the Mammoth Fun Shop.

Community Food, Toy and Clothing Drive

New this year, the Town in partnership with Footloose Sports, Mammoth Fun Shop, the Mammoth Lakes Chamber of Commerce, Inyo Mono Advocates for Community Action, Inc. (IMACA), the Angel Giving Tree, the Salvation Army, and the Mammoth Lakes Fire Protection District are honored to introduce a community-wide food, toy and clothing drive. Between noon and 6:00 p.m., drop-off your unexpired food items, or well-loved clothing at the old Bank of America building located on the corner of Main Street (SR 203) and Laurel Mountain Road. Toy donors are requested to drop off new unwrapped toys at Mammoth Fun Shop located opposite the old Bank of America building. Town staff along with representatives from our local non-profits will be on-hand to collect and store your items – you don't even have to leave your car!

Suggested unexpired food items for donation include:

- Meals in a can (stew, chili, soup)
- Tuna and canned meat
- Peanut butter (please avoid donating items packaged in glass)
- Low-sugar cereals
- Canned fruit packed in juice
- Canned vegetables (low salt)

Need toys? Mammoth Fun Shop is offering a 30% discount on any item being purchased for and subsequently left in the donation box for the Angel Giving Tree program at the store. They will

also honor 10% off anything else purchased in the same transaction. Mammoth Fun Shop will be open until 8:00 p.m. on the night of the Tree Lighting Ceremony.

We encourage the community to give what they can to those less fortunate during this festive season. Thank you in advance of your generosity.

Official Tree Lighting Ceremony

Beginning at 5:30 p.m., stay warm around the many fire pits and enjoy holiday music, hot beverages and warm snacks available for sale by local non-profit organizations. Mayor Jo Bacon will welcome in the festive season at approximately 6:00 p.m., and Santa will be arriving from the North Pole to light-up our Christmas tree and meet all our good boys and girls, compliments of the Mammoth Lakes Fire Protection District. Woolly is also rumored to be making an appearance and the MHS Boosters Club will be selling Christmas trees, so donate to a worthy cause and go home ready to decorate your own special tree.

Local Beneficiaries

Inyo Mono Advocates for Community Action, Inc. (IMACA) is a private non-profit corporation. IMACA was created to work with and serve low-income residents of Inyo, Mono, and Alpine Counties in California. It is the mission of IMACA to empower low-income people, to advocate for their needs, and to find and maintain a healthy lifestyle by breaking the cycle of poverty.

The Angel Giving Tree takes referrals from the schools and social services of income eligible children to help them have a brighter Christmas. The tree is located in Vons but not all children's tags are taken; you can bring an individual toy or clothing and drop it off for children up to 15 to help us cover these children.

The Salvation Army, an international movement, is an evangelical part of the universal Christian Church. Its mission is to preach the gospel of Jesus Christ and to meet human needs in His name without discrimination. The Salvation Army's traditional red kettle is an integral part of the Christmas scene, with millions of dollars donated each year to aid needy families, seniors, and the homeless. Many families receive aid over a period of months after the Christmas season, as well as people struggling with difficult family, emotional, or employment problems.

Please contact Recreation Supervisor Stephanie Daniel at (760) 934-8989 ext. 237 to volunteer or for additional information about this fun, family and festive event.

Public Works Fall Update

The Town of Mammoth Lakes has been conducting various projects throughout the community, including work at the Bluffs, Meridian Boulevard, Canyon Boulevard, and Waterford Avenue. SPIESS Construction, with experience in the area for nearly twenty years, has been the contractor on all four.

The Bluffs: Asphalt grinding and repaving of the streets in The Bluffs, including Fir Street, LeVerne Street, and Pine Street occurred during September and October 2014. The project has been completed.

Meridian Boulevard: A sidewalk was installed on Meridian Boulevard from Old Mammoth Road to Minaret Road, as well as accessible pedestrian ramps at Sierra Manor Road and Sierra Park Road intersections. Meridian Boulevard has been improved from its previous configuration to three lanes, including a center turning lane and bike lanes on both sides. Additional work to be completed includes removal of existing traffic lines, completing the bus shelter, and site clean-up. This Safe Routes to School project will be completed before Thanksgiving.

Canyon Boulevard: Significant storm drain work, retaining walls and sidewalk along the north side has been installed on Canyon Boulevard from Forest Trail to Lake Mary Road. Additional work to be completed includes site clean-up and minor contractual items. The project will be completed by Friday, November 21.

Waterford Gap Closure: Construction is on-going for the Waterford Gap Closure. This long-awaited project will be complete in late December, 2014. The Town requests residents stay outside of the construction zones at all times. This project completes a critical link in the Town's multi use path system and provides emergency access for the area.

If you require further information or have issues during the construction please feel free to contact: Jamie Robertson, Assistant Civil Engineer at (760) 934-8989 ext. 283. Thank you in advance for your patience and understanding.

Town Channel 51 Has Moved!

The Town's dedicated channel, TV 51 has moved to Channel 18. The move was necessitated by Suddenlink and their local programming needs. TV Channel 18 will still continue to provide access to all the Town's meetings with live and taped coverage of Town Council, and advisory body meetings such as the Planning and Economic Development Commission and Recreation Commission. For meeting dates and times, please visit: www.townofmammothlakes.ca.gov.

Projected Average Resort Occupancy

- Friday, November 21, 2014 = 26%
 - Saturday, November 22, 2014 = 34%
- (19% same weekend in 2013, up in 2014)

- Sunday, November 23, 2014 = 28%
 - Monday, November 24, 2014 = 29%
 - Tuesday, November 25, 2014 = 32%
 - Wednesday, November 26, 2014 = 44%
 - Thursday, November 27, 2014 = 50%
- (42% same midweek in 2013, down in 2014, Thanksgiving week)

Hotels/Motels/B&B:

- Friday-Saturday = 40%
- Sunday-Thursday = 48%

Condos:

- Friday-Saturday = 16%
- Sunday-Thursday = 21%

Outlook for the following weekend:

- Friday, November 28, 2014 = 55%
- Saturday, November 29, 2014 = 44%

Please remember that the projected occupancy is calculated in order to assist the business community with staffing levels and product ordering. The actual occupancy percentages are reported from the lodging industry to the Town of Mammoth Lakes Finance Department.

Community News

Nordic Rocks! – Nov. 21

Bring your family and friends to Nordic Rocks, Eastern Sierra Nordic Ski Association's inaugural country dance fundraiser on Friday, November 21, 2014 from 6:00 - 9:00 pm at the Crowley Lake Community Center. You will support the Mammoth Junior Nordic Team while seeing your friends, listening to fun music, eating good food, and/or stepping out and learning beginning country dances. All ages will enjoy this event and you don't need a dance partner or dance experience. The dances to be taught are based on 17th century French and English folk dances that have evolved into the American contra dance, barn dance, and square dance. The live music performed by local musicians Wild Mountain Thyme and Friends will be down home, good feeling, acoustic music flavored by old timey, bluegrass, Celtic tunes. Buy \$5 advance tickets at Booky Joint or Spellbinder through Thursday, November 20th. \$7 tickets will be available at the door. Children under 10 are free.

The Village at Mammoth Tree Lighting Weekend – Nov. 28

The Village at Mammoth will be dressed in her holiday best for the annual Tree Lighting Ceremony. Join Woolly and Santa for photos, kids activities with a stilt circus, juggler and magician or kick back in the Plaza and listen to live music from the Mark Sexton Band.

- Nov. 28 3:00-7:00PM Tree Lighting: Santa and Woolly arrive to light the Village Xmas Tree plus pictures and Xmas wishes in Santa World , with The Mark Sexton Band, Stilt Circus stilt walkers, Juggler, Magician (Tree Lighting 6PM)
- Nov. 29 3:00-5:30PM: Santa and Woolly in Santa World for pics and Xmas wishes, The Mark Sexton Band, Stilt Circus stilt walkers
- Nov. 30 3:00-5:30PM: Santa and Woolly in Santa World for pics and Xmas wishes, Juggler, Magician

Friends of The Inyo To Host Wild & Scenic Film Festival – Dec. 5

Join Friends of the Inyo as it hosts the Wild and Scenic Film Festival On Tour in the Eastern Sierra. Films will be showcased in **Mammoth Lakes** at the Edison Theatre on Friday, December 5, in **Bishop** at Cerro Coso Community College on Saturday, December 6 and in **Lone Pine** at the Lone Pine Film History Museum on Friday, December 12. Doors open at 6:15 p.m. for all showings; films begin at 7:00 p.m.

The Wild & Scenic Film Festival is a collection of films on tour from the annual festival held in Nevada City, CA the third week in January each year. In the Eastern Sierra, the festival brings together two programs of inspiring and visually stunning films, which celebrate the natural world, environmental conservation, and outdoor exploration. One film program will screen in Mammoth, and the second film program will be shown in Bishop with an encore presentation in Lone Pine. Everyone is invited to enjoy food, drink, and the chance to win great prizes while supporting Friends of the Inyo and our rich public lands.

"We're excited to bring the Wild & Scenic Film Festival to the Eastside again this year," said Laura Beardsley, Friends of the Inyo's executive director. "This year's films feature the stunning diversity of the natural world and inspiring stories of people making a difference for its future."

In **Mammoth Lakes**, visitors will be given a glimpse into the world of elite adventure athletes in *Into the Mind* and the short vignette *The Joy of Air*. Additional films will explore the themes of preservation, water, and balance in the natural world. In *Fighting for the **Futaleufú*** introduces the richly diverse **Futaleufú** River in Chile and efforts to save it from a future dam. *Snows of the Nile* explores the evidence of climate change from the peaks of Uganda's Rwenzori Mountains. Other films will examine the process of creating an early and intimate connection between nature and children, the formation of the largest marine preserve in the world, and the hidden diversity found in the Southern Appalachia.

In **Bishop and Lone Pine** audiences will enjoy a variety of short films including *Honor the Treaties*, a story of a photographer using his craft to fight for justice on the Pine Ridge reservation; *Down the Line*, which chronicles the birth of canyoneering in British Columbia, and *Badru's Story*, a highlight of the work of wildlife biologists in Uganda's Bwindi Impenetrable National Park who have been using radio cameras to document and monitor the biodiversity. Other films include the poignant tale of the birth of eco-tourism in Patagonia and an account of a bold young man who, when paralyzed from the waist down, didn't let his disability end his passion for outdoor recreation. Along with these films the audience can expect to be inspired by a variety short films, which focus on themes from outdoor adventure to environmental justice and activism.

The Wild & Scenic Film Festival was started by the watershed advocacy group, the South Yuba River Citizens League (SYRCL) in 2003. The festival's namesake is in celebration of SYRCL's landmark victory to receive "Wild & Scenic" status for 39 miles of the South Yuba River in 1999. The 4-day event features over 100 award-winning films and kicks-off the national tour to over 100 communities nationwide. It is building a network of grassroots organizations connected by a common goal of using film to inspire activism. With the support of their National Partners: Patagonia, CLIF Bar, Sierra Nevada Brewing and Mother Jones, the festival reaches an even larger audience in tour venues coast to coast.

Hosting the Wild & Scenic Film Festival is a natural extension of Friends of the Inyo's work to inspire people to care for and preserve the outstanding beauty, recreation opportunities, and natural resources that surround us on the Eastern Sierra's public lands. As a non profit founded in 1986, Friends of the Inyo has connected thousands of people to their public lands – locals and visitors alike – through hikes, tours, volunteer opportunities, habitat restoration, trail maintenance, film presentations, and meetings.

EVENT DETAILS:

- Friday, December 5, Mammoth Lakes, Edison Theatre, 100 College Parkway
 - Saturday, December 6, Bishop, Cerro Coso Community College, 4090 West Line Street
 - Friday, December 12, Lone Pine Film History Museum, 701 South Main Street
 - Doors at 6:15pm. Films begin at 7:00pm
- Tickets are \$12 each night or free with the purchase of a new or renewed Friends of the Inyo membership.

Tickets can be purchased at the door or in advance at the Booky Joint in Mammoth, Eastside Sports and Friends of the Inyo in Bishop, and the Lone Pine Film History Museum in Lone Pine. For more information, visit www.friendsoftheinyo.org or call (760) 873-6500.

Friends of the Inyo Contact: (760) 873-6500

DSES Presents the Annual Island Extravaganza – Dec. 13

Island Extravaganza, Disabled Sports Eastern Sierra's biggest fundraiser of the year, invites you to costume it up and party down! Join us at Canyon Lodge on Saturday, December 13, 2014 at 6:00 p.m. for another year of Mardi Gras-themed mirth and merriment, featuring a delectable dinner, silent auctions, raffles, and dancing to music by the always awesome and entertaining Gator Nation!

Tix: \$70 includes dinner and a raffle ticket. Purchase tickets online, at the DSES office in the Gondola building at Mammoth Mountain Ski Area, and in Mammoth Lakes at the Second Chance Thrift Store or the Booky Joint! Info: (760) 934-0791 or <https://dses.webconnex.com/IE2014>.

Earthquake Fault Temporary Closure

The Inyo National Forest announces a temporary closure of the Earthquake Fault interpretive area starting Friday, November 21, 2014. This purpose of this closure is to remove potential danger trees from along the access road and picnic area at this site. Closure of the bike trail passing through this area will also be in effect during tree removal. Work is expected to last up to two days. Road Closed and Trail Closed will be posted prior to work commencing. The forest appreciates your patience while this important work is completed. If you have any questions, please contact Jon Kazmierski, District Recreation Officer at 760-924-5503.

Mammoth Lakes Courthouse Further Furlough Day Closures and Other Service Reductions

In August, the Superior Court of Mono County issued public notice that it would close the Mammoth Lakes Courthouse every third Friday, from October 31 2014 through the remainder of the fiscal year (13 days). Unfortunately, the Court recently learned that it will not receive supplemental funding it had hoped for. This means that the court must extend its Friday closures to include four additional dates (a total of 17 closure days). These will be unpaid furlough days for court staff. The following is the revised list of Friday closure dates (with the new dates bolded and underlined):

- 2014: October 31, November 14, December 5, December 26
- 2015: January 9, January 16, January 30, February 13, February 20, March 12, March 13, April 3, April 24, May 15, May 22, June 5, June 26.

In addition, increasing workloads and reduced staffing resources compel the court to reduce services to the public beginning January 16, 2015, as follows:

- Reduced Court Clerks' Office Hours—Half Days: Currently, the Mammoth Lakes Courthouse Clerks' Office is open from 8:30 a.m. to 4 p.m., Monday through Friday. Beginning on January 16, 2015, those hours will be reduced. The office will be open on Monday, Wednesday, and Friday from 8:30 a.m. to 12:30 p.m. and on Tuesday and Thursday from 12 p.m. to 4 p.m.
- Clerks' Office Telephone Hours Eliminated: Beginning on January 16, 2015, court clerks will no longer be able to provide assistance by telephone to the general public. The public may come into the office in person, or submit requests by mail, fax, or e-mail. Any requests submitted by mail should be addressed to: Mono County Superior Court, P.O. Box 1037, Mammoth Lakes, CA 93546. Fax requests may be directed to: 760-924-5419. E-mails may be sent to: superiorcourt@monocourt.org.

On the 17 furlough days listed above, and during the portion of the regular business day that the clerks' office is closed on or after January 16, 2015, a judge will be available to conduct any criminal arraignments and examinations as required by statute, and to sign any orders or documents on an emergency basis. A drop box also will be available at the courthouse to accept same day filings on closure days, and after January 16, 2015 on all other non-holiday week days. All documents deposited before 4:00 pm will receive a same day date and time stamp.

If you would like to submit a written comment regarding the reduced services described in this notice, please address them to: Hector Gonzalez, Court Executive Officer; by e-mail to: SuperiorCourt@monocourt.org; or by regular mail to: P.O. Box 1037, Mammoth Lakes, CA 93546.

Recreation Department Highlights

Hot Shots Youth Basketball – 18 Years Running!

Hot Shots - our local youth basketball program for 3rd-5th grade girls and boys is now underway. Join Recreation staff on Tuesday and Thursday evenings for basketball instruction from 5:30 – 7:00 p.m. in the MES gym, November 4 – January 29, 2015. Early bird cost is \$40 which includes one month of clinics followed by almost two months of league play. This is the best basketball program in Mammoth Lakes for your elementary school basketball enthusiast -- covering all the basic skills and preparing your child for middle school and high school basketball. For more info or to volunteer please call John Connolly at 760-934-8989 x234. Register online at www.mammothrecreation.com.

Adult Coed Indoor Soccer League Begins Jan. 11

The Adult indoor soccer league is back at the MHS Gym every Sunday night beginning January 11, 2015. We need a minimum of 4 Teams to offer the program with a max. of 8 coed teams of 10 players. Rules will state that there will be one female on the playing court at all times. Team fee: \$275 prior to 12/31/14 or \$300 per team after 1/1/15. Fee includes indoor soccer 'game' ball. Games are scheduled between 5:00 – 9:00 p.m. Visit www.mammothrecreation.com to register or call the Recreation Department at (760) 934-8989 ext. 222.

Public Service Announcements

Time to Check Wood Burning Appliances

With the change in the seasons, the Mammoth Lakes Fire Protection District would like to remind all users of wood burning appliances to make sure that your heating system is ready to keep you and your family warm this winter. There are numerous activities that one needs to perform on the system to give you heat and a winter free of problems. The National Fire Protection Association reports that a third of the people using wood type heating have never cleaned or inspected their chimneys or stovepipes, or knew that they needed to.

In addition, there are many who have never used wood as a source of heat or who are looking at ways to reduce their heating bills and have decided to add a wood heating source to cut costs. Many are turning to a wood type heating source and will be assuming that the wood heating system that is located in a rented apartment, condo, or house is ready for use. Now is the time to check all of the components of your heating system and to become familiar with how to use wood as a heating source. If you are not qualified to make this type of evaluation, refer to a specialist before use.

There are several simple steps that one can take to ensure that your system will be safe for use:

First, make sure that the device, be it a woodstove, fireplace, or pellet stove, is sound and in good working order. If you do not possess the skills to make this evaluation, refer to a specialist. Part of this evaluation must include an examination of the flue pipe (this includes pellet stove pipes) that exhausts the products of combustion to the outside air. Make sure that all components are sound, have adequate clearance, are clean of all combustible materials, and operational.

Make sure that you are inserting the proper fuel type for the burning device that you are using. The use of seasoned firewood in a fireplace or woodstove is important to keep the amount of creosote buildup to a minimum. Burning higher quality pellets will also result in less creosote buildup and less ash in a pellet stove. Burning a hot fire will decrease the buildup of creosote while emitting the least amount of the smoke. Also, use dry paper for fire starter and never burn glossy colored paper or pressure treated wood. If using compressed logs, make sure that the manufacturer recommends that this type of fuel can be used in your appliance.

Dispose of the ashes in a proper fashion. Do not place hot ashes outside or in a dumpster. Obtain a metal can for placing hot ashes into and store the ashes inside until completely cold. Remember that a can of ashes can be cold on the surface, but still hot in the center. The quickest way to cool hot ashes is to mix water thoroughly with the ashes in the metal can and let stand for several hours. Then the ashes can be safely placed outside.

Do not store or place anything flammable within 18 inches of a fireplace or wood stove. Code requires that you have a non-combustible surface in front of the stove or fireplace that extends out 18 inches to the front of the unit. Be extra careful with hanging anything above a stove or fireplace.

Check the exterior of the structure to see that the exhaust pipe has 10 feet of clearance around the cap area from any tree limbs and make sure that all needles

and dead branches resting on the roof are removed prior to starting your stove or fireplace.

If your unit has a wood burning insert placed inside a zero clearance fireplace box (original fireplace) with factory built metal flue pipes contained in a wooden chase, an evaluation of the concealed clearance to combustibles needs to be performed. If this situation exists in your unit, per Town Ordinance 13-03, the owner has until October 31, 2022 or upon sale prior to that date, to comply with the conditions of the ordinance. For more information on this item, please contact the Fire Department to schedule an assessment.

If electric heat is being used, vacuum the unit to remove any dust accumulations before startup and ensure that all combustibles are at least 3 feet from the heating unit at all times.

Remember most home heating fires can be prevented. The winter season results in an increase of structure fire activity and most of these fires are a result of improper heating uses. If you would like any additional information on these topics or anything else pertaining to your safety, please feel free to contact the Mammoth Lakes Fire Station at any time at (760) 934-2300.

Popular Woodstove Replacement Program Back For Limited Time

In response to popular demand, Mono County and Town of Mammoth Lakes officials announce the return of the Woodstove Replacement Program for property owners who want to upgrade from wood-burning stoves and fireplaces to cleaner and more efficient heating systems.

Following an agreement in early 2014 between the Great Basin Air Pollution Control District and Los Angeles Department of Water and Power, Air District Board-member agencies received settlement funds allocated on a per capita basis to pay for air pollution prevention programs across their districts. With several hundred thousand dollars between them, officials from the Town of Mammoth Lakes and Mono County chose to spend their funds on reducing wood smoke emissions from wood-burning heating systems throughout the region.

Similar to the Air District's recent CAPP-funded woodstove replacement program, funding will be provided to local retailers who are contracted by qualified property owners to provide and install the new systems. Shared costs will be required from property owners, with amounts dependent on the new system and installation requirements.

To qualify for program participation, an existing wood-burning system (woodstove or open fireplace) must be a building's primary heat source, it must be located within Mammoth Lakes or Mono County, and it must fall under one of several qualifying categories:

1. Within Mammoth Lakes: For properties purchased in 1990 or earlier* with owners who want to replace pre-1990 wood burning systems, \$1,500 may be available toward the cost of a new EPA Phase II wood-burning system, or \$2,000 toward a new EPA certified pellet stove or gas heating system. Documented proof of property purchase date is required.
2. Newly purchased properties within Mammoth Lakes: For properties required to replace an old, noncompliant wood-burning system by Town Code §8.30.050, and changed title within last few months, \$500 may be available

toward a new pellet or gas heating system. Documented proof of property purchase date and submittal of building permit is required. New woodstoves are excluded from this offering.

3. Within Mono County, excluding Mammoth Lakes: For pre-1990 wood burning stoves and open fireplaces (not EPA compliant), \$1,500 may be available toward a new EPA Phase II wood-burning stove or fireplace, or \$2,000 toward a new pellet stove or gas system.
4. Within Mammoth Lakes and Mono County: For woodstoves currently being used which are newer than 1990 (EPA Phase I or II-certified stoves, excluding pellet stoves), \$2,000 may be available toward a new, cleaner-burning pellet stove or gas heating system. This amount applies to replacing post-1990 woodstoves with pellet or gas (propane or kerosene) systems only.

*Mammoth Lakes properties that were purchased or changed ownership after 1990, and not upgraded to EPA certified heating systems (Phase I or Phase II) as required by Town Municipal Code 8.30, do not qualify for funding under this program.

All replaced stoves must also be freely relinquished to the retailer during new installation, and open fireplaces must be rendered inoperable.

This program is open to public participation through local participating retailers only on a 'first come, first served' basis until allocated funds are exhausted, and qualified payments for new systems will only be made to participating retailers.

All interested Mammoth Lakes and Mono County property owners are encouraged to immediately contact one of the participating retailers serving the area: Alpine Stove & Mercantile (760/934-4416); Angelo's Stove & Chimney (760/937-0860), Clean Sweep (760/934- 3453); High Country Lumber (760/924-2720); Manor True Value Hardware for Mono County only (760/873-3106), and Batchelder Enterprises for kerosene heating systems (760/873-3800).

For additional program information, please call (760) 914-0388 or email ljm.isaacs@gmail.com.

Cycling Etiquette and The New Three Feet For Safety Act

The Town will be actively communicating proper cycling etiquette and the rules of the road to both motorists and cyclists when the new "Three Feet for Safety Act" goes into effect September 16, 2014.

Known as the "Three Feet for Safety Act," new state vehicle code section (21760) requires that a driver of a motor vehicle shall not overtake or pass a bicycle proceeding in the same direction on a highway at a distance of less than three feet between any part of the motor vehicle and any part of the bicycle or its operator.

Police Chief Dan Watson is urging all drivers in Mammoth Lakes to comply with the new law. "This law includes public streets and even if three feet is not possible, the motor vehicle must slow to a reasonable and prudent speed and only pass when no danger is present to the bicyclist. Failing to do so can incur a fine, regardless of a collision or not."

Chief Watson also urges all bicyclists to comply with the rules of the road, including stopping for stop signs and pedestrians, riding as far to the right as practicable, and riding in single file. Bicyclists are also encouraged to use the Town's extensive system of bike

paths when possible. The Town will not be pursuing a local ordinance to implement the new law as the definition applied is very broad and includes all public streets. It should also be noted that currently the Town of Mammoth Lakes Municipal Code does not prohibit bikes on sidewalks.

Additional information about the "Three Feet for Safety Act," including violations; can be viewed online at: <http://www.dmv.ca.gov/pubs/vctop/d11/vc21760.htm>.

According to the National Highway Traffic Safety Administration (NHTSA) and the Fatality Analysis Reporting System (FARS) that details the factors behind traffic fatalities on our roads, in California (2011), the statewide percentage of bicyclist fatalities was 4.1% of all fatalities, which is nearly twice the national average of 2.1%.

FARS also identified that between 2009 and 2011, collisions between bicycles and motor vehicles are more likely to occur on local roadways than the State Highway System, and 85% of fatalities involving bicycles and 89% of severe injuries involving bicycles occurred on a local road compared to 57% of fatalities overall and 64% of severe injuries overall.

Supporting the passage of AB 1371 (Bradford) was the California Association of Bicycling Organizations (CABO). From the CABO President's point of view, "I support this bill because of my expectation, well hope, that incidences of antagonistic or clueless "buzz-backs"/scary close passing and hit from behind crashes will subside as people learn about the Three Feet for Safety Act."

Local cycling advocate and Eastside Velo (ESV) President John Armstrong hopes that someday a sign will be erected upon entering Mono County that says "We Respect People on Bikes."

ESV has over 200 active members who ride regularly throughout the Eastern Sierra. As an organization, they actively promote proper cycling etiquette and even have a short video on their website that promotes safe and responsible riding practices. Their Top 3 "Rules to Ride by..." are as follows:

1. Be courteous and share the road. Being courteous gains respect and helps make the roads safer for all cyclists.
2. Signal your intentions if you can safely do so. If you are turning, point in the direction you plan on going. If you are slowing, put your hand out behind you.
3. Be friendly. If someone is courteous to you and does the right thing, wave and smile. Everyone likes to be acknowledged for doing the right thing.

Please visit the ESV website (www.eastsidevelo.org) to review the complete list of "Rules to Ride by."

Armstrong hopes that common sense will prevail regarding the new "Three Feet for Safety Act," but understands that the best strategy for cyclist's safety is educating our motoring public.

"Many times on my bike I have been in a situation where a motorist does not slow down. The motorist powers onwards and forces a squeeze play with another vehicle and me, and guess who comes off the worst? Oftentimes I end up in the dirt or on the sidewalk."

To facilitate effective education, Armstrong recommends cyclists and motorists pick up a copy of the new "Quick Guide to Smart Cycling" distributed by the League of American Bicyclists that will be available locally this fall. This full-color, 24-page Quick Guide covers just about everything you need to know to ride a bike safely and confidently, providing an easy-to-understand resource that appeals to all demographics: prospective bicyclists, novice riders, and even seasoned pros.

To read the Smart Cycling Quick Guide online, visit this link: <http://bikeleague.org/quickguide>.

Mammoth Lakes Police Department Reserve Officer Mike Braun will be actively communicating proper cycling etiquette and the rules of the road to both motorists and cyclists within Mammoth Lakes this fall.

"Cyclists have the same rights and duties as drivers. They need to obey traffic signals and stop signs, and most importantly, need to ride with traffic, and use the rightmost lane headed in the direction they are going," stated Braun.

Officer Braun also encourages cyclists to be predictable by making their intentions clear to everyone on the road. "Signal turns and check behind you well before making a turn or changing lanes."

Above all, stay safe, stay visible and ride on the right!

For additional information regarding the new "Three Feet for Safety Act" and proper cycling etiquette, please call the Mammoth Lakes Police Department at (760) 934-2011 or contact Officer Braun at mbraun@townofmammothlakes.ca.gov.

Sierra Conservation Project and Town of Mammoth Lakes Partner to Expand Condominium and Business Recycling Program

The Sierra Conservation Project, Inc. (SCP) and Town of Mammoth Lakes are pleased to announce the expansion of the current condominium, commercial and recreational area recycling programs in the Town of Mammoth Lakes.

"This long-standing and successful partnership between the Sierra Conservation Project and the Town enabled us to submit and receive a substantial \$108,000 CalRecycle grant to expand on-going recycling programs within the community that benefits our residents, visitors and wildlife," stated Peter Bernasconi, Acting Public Works Director for the Town of Mammoth Lakes.

The Sierra Conservation Project is working in partnership with the Town of Mammoth Lakes and the Department of Resources Recycling and Recovery (CalRecycle) to provide an additional 30 bear proof containers to the remaining Condominium complexes in town that currently don't have a recycling program in place. In addition, CalRecycle grant funds will enable SCP to upgrade all commercial bear proof containers at restaurants, bars and other business locations in town, including the enhancement and placement of recycling infrastructure in the Lakes Basin and at key park locations in Mammoth Lakes, such as the Whitmore Recreation Area and Shady Rest Park.

Recyclable materials make up a large percentage of the waste produced in our residential complexes and businesses," stated Brian Robinette, owner of SCP. "These community-based programs aim to divert recyclable materials from our local landfill, while also educate our residents and visitors on the need for convenient recycling programs. We are confident that by providing start-up infrastructure for these complexes and businesses it will help make program implementation affordable and reduce the environmental impacts of each resident and guest," said Robinette.

To register for the Condominium Recycling Program, please visit www.recyclesierra.com or www.Townofmammothlakes.ca.gov.

For additional information on the **Condominium and Business Recycling Program**, please contact Sierra Conservation Project at (760) 914 0115 or e-mail Brian@recyclesierra.com.

Would You Leave A Loaded Gun on the Floor?

If you have children in your home, hopefully you would not! However, a new threat to the health of our children is emerging. These are e-liquids, sold legally in stores and online in small bottles that may be carelessly and casually left around the house, used for the regular re-filling of e-cigarettes.

The danger is from the nicotine content in these vials of "juice". Children can happen upon a vial and ingest it. These fluids come in flavors and bright colors that are attractive for kids – cotton candy, cherry, chocolate, and bubble gum among others. In addition, nicotine is absorbed through the skin, presenting a risk from a broken vial.

Electronic cigarettes, called e-cigarettes, are drug delivery devices originally designed to look like regular tobacco cigarettes. Now they are larger reusable gadgets that can be refilled with liquid, generally a mixture of nicotine, flavorings, and solvents. It is estimated that roughly four million Americans use these battery powered devices. They have been hailed by proponents as a way for addicted smokers to get their nicotine fix without sucking in the thousands of carcinogens found in traditional cigarettes.

However, the evidence of their effectiveness in assisting persons in weaning off their nicotine addiction is less than stellar. In addition, evidence is rapidly mounting that they are serving as a "gateway" for young teens into the world of nicotine addiction. A recent study found nearly 1.8 million youth had tried e-cigarettes, and the number of middle and high school e-smokers doubled in one year. No wonder the industry targets the young who will be potential customers for decades to come! Their goal – to have the number of e-smokers quadruple in the next few years.

So how bad is the risk of exposure? Nicotine is a naturally occurring powerful neurotoxin, and in its potent liquid form, can be ingested or absorbed through the skin. Tiny amounts can cause vomiting, seizures, and even death. A teaspoon of even the highly diluted liquid can kill a small child.

A dose of 50 to 60 milligrams (mg) is potentially fatal for an adult; a 30 pound child could die from 1.36 mg. A vial of e-juice as commonly sold in retail stores is 17 milliliters, and with a 2.4% concentration would have 408 mg of nicotine. This year it is estimated that 1 to 2 million LITERS of liquid will be sold, much of it on the Internet. A liter of 10% concentration costs about \$110, a gallon \$195, and one company even offers a 55 gallon drum!

Nationwide, reports of accidental poisonings linked to e-liquids in 2013 jumped 300% from 2012, and is on pace to double again this year. Most cases are under the age of 4. A shop owner says that "We tell them that this stuff is poisonous. We do everything we can to protect the consumers, but at the end of the day, you leave a loaded gun on the floor, and your child gets hold of it, it's not gonna be the gunmaker's responsibility." A CEO of e-cigarette franchises says "It's the wild, wild west right now." There is no FDA regulation so far. So at the moment, if you are a user, your child has to go no farther than your own home to find a lethal dose of poison. Be aware of the risks, and keep vials out of reach. You are responsible for the safety of your children.

Governor Brown Declares Drought State of Emergency

With California facing water shortfalls in the driest year in recorded state history, Governor Edmund G. Brown Jr. today proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for these drought conditions.

"We can't make it rain, but we can be much better prepared for the terrible consequences that California's drought now threatens, including dramatically less water for our farms and communities and increased fires in both urban and rural areas," said Governor Brown. "I've declared this emergency and I'm calling all Californians to conserve water in every way possible."

In the State of Emergency declaration, Governor Brown directed state officials to assist farmers and communities that are economically impacted by dry conditions and to ensure the state can respond if Californians face drinking water shortages. The Governor also directed state agencies to use less water and hire more firefighters and initiated a greatly expanded water conservation public awareness campaign (details at saveourh2o.org).

In addition, the proclamation gives state water officials more flexibility to manage supply throughout California under drought conditions.

State water officials say that California's river and [reservoirs](#) are below their record lows. Manual and electronic readings record the snowpack's statewide water content at about 20 percent of normal average for this time of year.

The Governor's drought State of Emergency follows a series of actions the administration has taken to ensure that California is prepared for record dry conditions. In May 2013, Governor Brown issued an [Executive Order](#) to direct state water officials to expedite the review and processing of voluntary transfers of water and water rights. In December, the Governor formed a [Drought Task Force](#) to review expected water allocations, California's preparedness for water scarcity and whether conditions merit a drought declaration. Earlier this week, the Governor toured the Central Valley and spoke with growers and others impacted by California's record dry conditions.

Mammoth Lakes Police Department Implementing Reserve & Volunteer Program

In an effort to off-set some of the impact resulting from the loss of 7 sworn officers, the Mammoth Lakes Police Department has been moving forward on developing Reserve and Volunteer Programs, and evaluating various forms of technology to help make the MLPD more efficient and effective. The following are some of the programs the MLPD is moving forward on:

RESERVE OFFICER PROGRAM

On February 6, the Town Council approved the establishment of pay scales for Reserve Officers. The pay will be:

- Level 1 Reserve - \$25/hour
- Level 2 Reserve - \$23/hour
- Level 3 Reserve - \$20/hour

Providing pay for Reserve Officers will make the MLPD competitive with other local agencies that have reserve programs and serve as a recruitment and retention tool.

Anyone interested in learning more about the MLPD Reserve Program should contact Sergeant Marc Moscovitz at (760) 934-2011.

VOLUNTEER PROGRAM

Many police departments benefit from active volunteer programs where trained volunteers assist police personnel by staffing front counters, completing reports, and providing community patrols. Retired Sergeant Karen Smart has agreed to manage the MLPD's

volunteer program. At some time in the future, information will be released about the types of volunteer work available and the selection criteria. Anyone interested in volunteering with the MLPD should be on the look-out for a news release announcing the start of the program.

TECHNOLOGY

The MLPD is moving forward with technological advances on several fronts. They include:

- An on-line reporting system where certain crimes can be reported on-line.
- An on-line crime and traffic report purchase program where victims of crimes and parties in traffic collisions can purchase copies of reports on-line.
- Access to surveillance cameras at the North Village.
- Surveillance cameras at the Volcom Brothers Skatepark.

The MLPD is also exploring other technology that will make the Police Department more effective in addressing crime, the fear of crime, and quality of life issues.

Free, Real-Time Property Information Now Available!

The Town of Mammoth Lakes and Mono County are proud to present ParcelViewer, the Town and County's official web-based property information system. This free, public, on-line service can be relied upon to provide convenient, accurate and up-to-date information, based on the official Assessor's data-base. Use ParcelViewer to view and print customized parcel information and maps, including:

- Zoning Information
- Property Addresses
- Complex Names/ Condo Unit Numbers
- Parcel Lines*
- Valuation Data
- Acreage
- Aerial imagery of surrounding properties and more!

Visit Parcel Viewer today at <http://gis.mono.ca.gov/parcelviewer/>

Transient Occupancy Tax (TOT) Frequently Asked Questions

Some of the most frequently asked questions about legal rentals and Transient Occupancy Tax (TOT) are:

1. What is a transient rental?

A transient rental is any unit that is occupied for the purpose of sleeping, lodging, or similar reasons for a period of 30 consecutive days or less in exchange for a fee or similar consideration.

2. Can I rent my unit as a transient rental?

Only some zones within the Town of Mammoth Lakes permit transient rentals. The following zones permit transient rentals:

- RMF-2 (Residential Multi-family 2)
- CL (Commercial Lodging)
- CG (Commercial General)
- R (Resort, including master plan areas)

- SP (Specific Plan, including North Village and Clearwater)

This list is intended as a guide only. Although the above zones permit transient use generally, other regulations, such as those found in master plans, CC&Rs, or project conditions of approval may prohibit transient rental within a particular development. Generally, transient rental of single family homes is prohibited. A zoning map can be found on the Town's website.

3. What is transient occupancy tax (TOT)?

Transient occupancy tax, or TOT, is a 13% tax that is charged "for the privilege of occupancy of any transient occupancy facility." The tax is required to be paid to the operator of the transient occupancy facility at the time the rent is paid. It is the operator's responsibility to remit the TOT to the Town.

4. Do I need to pay TOT?

If you are renting your unit as a transient rental, even if it is only for one weekend a year, you need to pay TOT. This includes single family homes and other units that are not permitted to rent nightly, but may be doing so illegally. TOT shall be remitted for each night the unit is rented.

5. Do I need a business tax certificate?

Yes, if you are renting your unit on a transient basis.

6. Do I need a transient occupancy tax certificate?

Yes. You are required to purchase a transient occupancy certificate for each rental unit to post in your transient rental property. This is included as part of Schedule E or F in the business tax certificate application.

7. What is the difference between a business tax certificate and a transient occupancy tax certificate?

Business tax is an annual tax and is required for all business activity. The transient occupancy tax certificate is a one-time purchase that is non-transferable. This certificate is required to be posted in your transient rental unit.

8. Do I need a business tax certificate if all of my rentals are handled through a reservation company?

If all of your rentals are handled through a reservation company, most reservation companies will purchase the transient occupancy tax certificate and collect and remit the TOT to the Town. You may wish to check with your reservation company to confirm that this is being taken care of. If you rent your unit by owner in addition to renting with a property management company, you are also required to obtain a separate business tax certificate and transient occupancy tax certificate.

9. How do I apply for a business tax certificate?

The Town's website contains information regarding business tax certificates, including an application for a business tax certificate: <http://www.ci.mammoth-lakes.ca.us/index.aspx?NID=182>. Transient Rentals fall under schedule F for condominium rentals and schedule E for hotels, motels, lodges, and campgrounds. This application can be mailed back to the Town, or submitted in person. The total cost for one unit is \$118.00 (\$65.00 application fee, \$5.00 planning review fee, \$25.00 fee to

rent one unit, \$23.00 TOT certificate fee). Additional costs apply for additional units. Business tax certificates are required on or before the first day business commences; penalties will apply for late filings. If you have additional questions regarding this process please contact the Finance Department at (760) 934-8989 ext. 273.

10. Do I have a business tax certificate?

To find out if you have a valid business tax certificate on file, please contact the Finance Department at (760) 934-8989 ext. 273 or your property management company.

11. What is illegal rental activity?

Illegal rental activity is any rental activity that is not consistent with the Town's Zoning Ordinance, or any rental activity that is not compliant with the Transient Occupancy Tax Ordinance. This can include transient rental of units located in zones that prohibit transient rentals. It can also include transient rentals in a zone where it is permitted, but when the TOT is not remitted to the Town.

12. How can I report illegal rental activity?

If you suspect illegal rental activity, you may submit an anonymous tip via the Town's TOT hotline at (760) 934-8989 ext. 275 or on the Town's website via the Transient Occupancy Tax information page. Please include any information that you have that would substantiate the claim, along with the property address and owner's name if you have it. You may also email tot@ci.mammoth-lakes.ca.us. Note that emails are not anonymous, however, staff will do its best to keep your information private.

13. Questions & Anonymous TOT Hotline

If you have questions about TOT enforcement, or if you would like to report suspicious activity or rental advertisements please contact our anonymous hotline. The Town will follow-up on any reports submitted. The Hot Line Number is (760) 934-8989 ext. 275 or email your information to: TOT@ci.mammoth-lakes.ca.us.

Register for CodeRED

Residents of Mono County can register their cell phones to receive emergency CodeRED (reverse 911) alerts from Mono County. This is a county public service available to all Mono County residents so please tell your friends and neighbors in Mono County that they can register for this service. CodeRED announcements are for personal notification and will not replace CERT CAHAN notification. Here is how to sign register/sign up using the INTERNET:

- Go to monosheriff.org
- Scroll down left side panel to CodeRED community notification system;
- Click on it and follow directions.

Town Outdoor Lighting Ordinance

In 2003, the Town implemented an outdoor lighting ordinance to eliminate light pollution and preserve views of our starry skies. The outdoor lighting ordinance was adopted to encourage residents to administer a lighting system that not only promotes public safety and night-time ambiance but to maximize energy conservation. To eliminate glare and light trespass into neighboring properties and roadways, the outdoor lighting fixtures on your property should be shielded and re-directed to shine downward or changed out to a lower wattage. More information about responsible lighting can be found at www.crlaction.org.
