News from the Town Manager

Town Council Meeting – Jan. 20

The next regular meeting of the Mammoth Lakes Town Council has been scheduled for Wednesday, January 20, 2016 beginning at 6:00 p.m. in Suite Z. Visit the [Streaming Media Archive](#) to review the previous meeting minutes or view the webcast Town Council meeting.

January Commission/Committee Meetings

- Jan. 12 Special Meeting of the Recreation Commission Meeting, Community Center, 10:00 a.m.
- Jan. 13 Planning and Economic Development Commission, Suite Z, 2:00 p.m.

Plan Mammoth Creek Park – We Want To Hear From You!

The Town of Mammoth Lakes has begun the process to plan, design and construct complementary Community Multi-Use Facilities at Mammoth Creek Park. The Town has allocated funding for the initial planning, preliminary design and the environmental documentation effort. If approved by Town Council, these facilities will be located on Town-owned land within Mammoth Creek Park on the west side of Old Mammoth Road.

The project includes three major components: a multi-use facility, complementary community center, and a playground with accessible components. The anticipated opening date of the multi-use facility is October 2017.

It is the intent of the Town to create a 'recreation destination' that the entire community of Mammoth Lakes will actively enjoy, value and ultimately be proud to call their 'Park.' The guiding principle builds from the "A Town within a Park" concept that will deliver local residents and visitors high-quality complementary recreation facilities at Mammoth Creek Park. The proposed improvements will be designed to work with the existing play areas and parking. Complementary programming will promote a degree of excitement, individual expression, exploration, pleasure, challenge and accomplishment that can lead to an improved quality of life.

The Town is seeking broad public input regarding the initial planning and design effort and invites you to a **Public Workshop on Friday, January 29, 2016 from 4:00 - 6:00pm at Suite Z in the Minaret Village Mall (above Starbucks).** The

date and time were selected to elicit as much community participation as possible. If you cannot attend in person, you may watch the workshop on Granicus, accessible online via the Town's website (www.townofmammothlakes.ca.gov).

The Town has created a dedicated website to provide project background and to keep you informed of the Plan Mammoth Creek Park project: www.planmcp.com. The website is the source for all information pertaining to this project. You may also subscribe to receive project emails or text notifications via the Town's 'Notify Me' list (www.ci.mammoth-lakes.ca.us/list.aspx) or send an email with comments or recommendations regarding the project to planmcp@townofmammothlakes.ca.gov.

Tell us how YOU want to PLAY at Mammoth Creek Park! The Recreation Commission wants to hear how you want to play in the park, on the ice, at the RecZone and in the Community Center. With your help, we can create a 'recreation destination' that the entire community of Mammoth Lakes will actively enjoy, value and ultimately be proud to call YOUR Park. Several workshops have been scheduled in February, March and April to obtain community input for programming needs and space alternatives for the proposed Community Multi-Use Facilities at Mammoth Creek Park.

Be part of your Town's recreation future by participating in the Plan Mammoth Creek Park project. We hope to see you on Friday, January 29, 2016 in Suite Z at 4:00pm.

"Know Your Limit" Program Success

The Mammoth Lakes Police Department, in partnership with Mono County Behavioral Health and Mammoth Taxi, conducted a Know Your Limit event in the Village at Mammoth. Know Your Limit is designed to help potentially impaired drivers make informed decisions as to whether or not they are capable of operating a motor vehicle safely. Officers with the Mammoth Lakes Police Department, California Highway Patrol and Mono County Sheriff's Department were present in front of Lakanuki in the Village at Mammoth on the evening of November 28th.

Citizens who wished to participate were offered the opportunity to submit to a voluntary PAS test, also known as a breath test. The results of the breath test were provided to the citizen, along with information on driving under the influence and a token for a free taxi ride provided by Mammoth Taxi. The tokens were paid for by Mono County Behavioral Health through grant funds. This educational program offers citizens the opportunity to learn more about alcohol consumption and its effect on their breath alcohol content. MLPD hopes that by providing citizens with a better understanding of their own limits on alcohol consumption that they will choose not to drive if they are above the legal limit.

The event was a huge success with over 150 citizens participating and over 60 free taxi rides distributed. The Mammoth Lakes Police Department wishes to thank to following business and law enforcement agencies for participating in this event: Mammoth Taxi, The Village at Mammoth, Lakanuki Restaurant & Bar, Smoke Yard, Vons of Mammoth Lakes, Mono County Behavioral Health, California Highway Patrol, and the Mono County Sheriff's Department.

The Mammoth Lakes Police Department will offer this voluntary educational opportunity several times throughout the year in Mammoth Lakes. For additional information on this event, please contact Officer Daniel Hansen at dhansen@townofmammothlakes.ca.gov.

Winter Parking Restrictions In Effect

The Mammoth Lakes Police Department is reminding citizens that winter parking restrictions went into effect on November 1, 2015. Per Mammoth Lakes Town Ordinance (MLTO) 10.12.100, there is no street parking from November 1 through April 30. This parking restriction is in effect and enforced, even if there is no snow. Vehicles must also be parked in a way as to not obstruct snow removal (MLTO 10.12.106). Additionally, there is time-restricted parking on the 6000-6200 block of Minaret Road in front of The Village, the 100 block of Canyon Boulevard at The Village, the Community Center at 1000 Forest Trail, and several designated roads as indicated by signage (MLTO 10.12.082). Parking enforcement will be monitoring for illegal parking and issuing citations. Vehicles found parked in violation of these ordinances are subject to receiving a parking citation and/or in some cases, vehicles may be impounded at the owner's expense. For more information, please contact the Mammoth Lakes Police Department at (760) 934-2011.

Notify Me!

Receive updates sent directly to your email or phone from the Town of Mammoth Lakes by subscribing to "Notify Me." Found on the left side of www.townofmammothlakes.ca.gov, stay current with Public Service Announcements, Emergency Alerts, Town e-News, Recreation This Week, No Burn Announcements, DNDP updates, bid postings, news flash, calendar items, and more! TV 51 has moved!

The Town's dedicated channel, TV 51 has moved to Channel 18. The move was necessitated by Suddenlink and their local programming needs. TV Channel 18 will still continue to provide access to all the Town's meetings with live and taped coverage of Town Council, and advisory body meetings such as the Planning and Economic Development Commission and Recreation Commission. For meeting dates and times, please visit: www.townofmammothlakes.ca.gov.

MLPD Friday Update – Jan. 3

CALLS FOR SERVICE/OFFICER OBSERVATIONS

- 91, including 0 business/building checks

CRIME/INCIDENT REPORTS

- 24 reports, including 8 arrests

TRAFFIC STOPS/CITATIONS/TRAFFIC COLLISIONS

- 25 stops; 75 citations; 69 parking citations; 0 skate park citations; 12 collisions

ANIMAL CONTROL INCIDENTS

- 1 incident; 0 report

WILDLIFE

- 0 calls; 0 reports

Projected Average Resort Occupancy

- Fri - Jan 08, 2016 74%
- Sat - Jan 09, 2016 74%
- Sun - Jan 10, 2016 50%
- Mon - Jan 11, 2016 47%
- Tue - Jan 12, 2016 42%
- Wed - Jan 13, 2016 39%
- Thu - Jan 14, 2016 43%
- Fri - Jan 15, 2016 73%
- Sat - Jan 16, 2016 76%
- Sun - Jan 17, 2016 68%

Please visit <https://gis.mono.ca.gov/apps/mlt/data/week/2016/1/8> for your projected average resort occupancy report. Please note: The LA Unified School District is still on holiday break and will go back to school on January 11th, 2016.

If you're a lodging property and would like to sign up to report your numbers, please contact John Urdi at JUrdi@visitmammoth.com or (760) 934-2712 ext: 1259

Please remember that the projected occupancy is calculated in order to assist the business community with staffing levels and product ordering. The actual occupancy percentages are reported from the lodging industry to the Town of Mammoth Lakes Finance Department.

Community News

Volcom's Peanut Butter & Rail Jam Qualifiers – Jan. 9

Over the course of 2016 Volcom's Peanut Butter & Rail Jam (PBRJ) contest series will travel North America to find the very best in amateur snowboarding talent. The 15 year strong series will qualify the top 5 competitors in each of its four divisions to compete in the \$15,000 PBRJ Global Championships on our Mammoth turf on April 18. Not competing? Volcom's Peanut Butter and Rail Jam is an awesome event for spectators, viewable from the Main Lodge Sundeck or right on the snow!

Cali4nia Passholder Early Ups – Jan. 9

An exclusive event just for Cali4nia passholders offered the first Saturday* of each winter month in December through April. Early Ups offers passholders the chance to enjoy 1-hour of private access to select lifts on Mammoth Mountain and indulge in a complimentary breakfast at McCoy Station.

National Winter Trail Days – Jan. 9

Free demos and guided tours on Nordic skis and snowshoes. Come out to the Tamarack Cross Country Ski Center and explore the Eastern Sierra like never before. To register or for more information, call Tamarack Cross Country Ski Center at 760.934.2442 x8 or register online at www.athleteinyou.com. Events and races subject to change. Space is limited.

Get outside to celebrate and enjoy winter. In partnership with the Town of Mammoth Lakes and the Inyo National Forest, Friends of the Inyo is grooming free Nordic trails at Shady Rest through March 15th, weather permitting. Cross country ski and snowshoe in a beautiful Jeffrey Pine forest on the edge of Mammoth Lakes. Stop by and visit us at the trailhead at the California Welcome Center this Saturday, January 9, 2016 for information about the trails and a little hot chocolate to warm up for your adventure. Check www.friendsoftheinyo.org or call (760) 873-6500 for more information.

Lakes Basin 15km Skate – Jan. 10

Challenge yourself to one or all of Tamarack Cross Country Ski Center's races this season. Or, be part of the fun by ringing your cowbells and cheering on the skiers. Tracks will be open to paid skiers during all races, and volunteers are always appreciated. Work those glutes a little harder with a longer distance and skinnier skis. This is a race for everyone, offering distances from 1-15km. Call Tamarack Cross Country Ski Center at (760) 934-2442 ext. 8 for start time information and register online at www.athleteinyou.com.

Burton Mountain Festival - Jan 15-17

The Burton Mountain Festival will be storming Mammoth Mountain this January and it's bringing a full payload of product, parties and positive vibes. Try out the latest gear for free, jam out to some après entertainment at Tusks Bar, and introduce the kids to sideways sliding in the Riglet Park. The Burton Girls Ride Day will focus on lady shredders, from beginners all the way up to women looking to dial in their park riding.

Burton Girls Ride Day – Jan. 16

Enjoy complimentary continental-style breakfast, demo the latest gear, take laps with fellow female riders and Burton Girls, and après the afternoon away. Meet at the BurtonGirls.com tent, part of the Burton Mountain Festival set up between Broadway Express (Chair 1) and Thunderbound Express (Chair 6) at 10:30am on Saturday January 16th, 2016. Burton Girls Ride Day is free, lift tickets not included.

BLANK Returns to the Edison Theatre – Jan 16/17

The talented Brian Stanton is returning to the Edison stage to perform his award-winning, one-man play, BLANK. Join this adoptee on his moving journey to discover where he came from and who he is.

From the Mammoth Times: "Stanton portrays 12 characters in 65 minutes to perfection, each character instantly recognizable by his or her unique voice and body language. It is clear Stanton has a firm grasp on writing comedy and knows how to appropriately use it to make us laugh and cry. Not only will you relate in some way to Stanton's search (and struggle) for a sense of identity, you'll walk away enthralled, amused, and emotionally touched from start to finish."

Succeeding BLANK, Patti Hawn complements Stanton's experience as an adoptee by bringing a birthmother's perspective of her teenage pregnancy, the surrendering of her son to adoption, and the search to reunite with him 40 years later. Together, Hawn and Stanton will stage readings from her brave memoir GOOD GIRLS DON'T followed by a talkback with the audience.

BLANK returns to Edison Theatre for two shows only: Saturday, Jan. 16, at 7 p.m. and Sunday, Jan. 17, at 4 p.m. Tickets online are: \$10 for children, \$18 for students and seniors, and \$20 for general admission. Tickets at the door will be \$22; sorry, no discounts. Call 760-934-6592 for more information.

U.S. Freeski & Snowboard Grand Prix - Jan 18-24

Get front row seats to this nationally televised contest and watch the top male and female athletes go big in Halfpipe and Slopestyle events. The best of the best skiers and snowboarders will compete in Unbound's famed Main Park and Super Duper Pipe for a shot at \$400k in prize money. Keep an eye out for runs from Mammoth Team Athletes Kelly Clark, Chloe Kim, Greg Bretz, Brandon Davis and more. The contests will be broadcast on NBC. Events happen Wednesday - Sunday and conclude an after party on Saturday night.

Buttermilk Boulders Clean Up – Jan. 18

Join Friends of the Inyo in cleaning up climbing areas in the Buttermilk Boulders. The Buttermilk see lots of recreation this time of year. Come help minimize impacts to the fragile desert ecosystem. We will meet at 8:30 am at the main parking area. Please come prepared for a few hours of work with closed toe shoes, long pants, water, and sun protection. For information visit friendsoftheinyo.org or call (760) 873-6500.

Crater Mountain Hike – Jan. 23

Looking for a great winter hike? Join us as we explore Crater Mountain at the north end of the Big Pine Volcanic Field on Saturday, January 12, 2016. Crater Mountain offers spectacular views of the Sierra and Inyo Mountains while providing excellent opportunities to see Tule Elk and other scenery. Directions and more information are available at friendsoftheinyo.org or by calling (760) 873-6500.

Winter Recreation: Play it Safe

The Inyo National Forest has some timely advice for winter recreation enthusiasts. Winter recreationists must plan their adventure considering the current conditions, the weather forecast, and the terrain and geography that will be traveled. Knowing what to expect will make your winter visit safer and much more enjoyable.

Anyone who may be traveling in potential avalanche terrain is encouraged to seek education and training resources; travel with a shovel, beacon, and probe; and have the knowledge required to use these tools. Visit the Eastern Sierra Avalanche Center website for the most recent information on snowpack and conditions www.esavalanche.org.

Ice skating is popular as well, but recreationists must carefully choose when they go onto the ice. No lake is certain to be safe with an adequate ice depth. Even though it has been cold, the ice is not necessarily deep enough. Cooling and warming trends can affect the ice significantly—recreationists are responsible to assess their risks before going out onto the ice.

Dress warmly for cold weather, including layers, wicking base layers, hats and gloves. Day-time temperatures can get warm with the sun and cool quickly in the evening. As always, don't underestimate weather in the High Sierra – expect that weather conditions can change rapidly.

The forest requires that all dogs are on a leash in all developed recreation sites, including groomed trails. Leaving pet waste behind on a groomed trail or in a developed recreation area is littering.

More snow is needed before the Shady Rest Nordic trails can be groomed. Additional snow accumulations are needed to begin grooming the snowmobile trail system. There is not enough (if any) snow on these trails.

Recreation Department Highlights

Skating is a blast at the Mammoth Ice Rink

January has been recognized as National Skating Month by U.S. Figure Skating. The theme for National Skating Month this year is "Skating is a blast!" Have a blast at the Mammoth Ice Rink this January with FREE beginner learn to skate lessons every Friday night. You can also watch some exciting hockey action from January 16-18 at the MLK Hockey Weekend Tournament, register for the LA KINGS Hockey Development Camp from January 29 or join our NEW SKI8 Program offered every Wednesday at 4:30pm.

Join us every Friday night beginning January 8 for FREE beginner level - learn to skate lessons every hour from 4:00 to 7:00pm. Please register in advance at the Mammoth Ice Rink or by calling (760) 934-2505. Lessons are based on the U.S. Figure Skating Basic Skills Program; are scheduled for 20-30 minutes, and are offered for both youth and adults.

The Mammoth Ice Rink is an outdoor facility located at 416 Sierra Park Road adjacent to the Mammoth Lakes Library. The facility offers satellite radio, evening fire-pits, quality rentals, skate sharpening service, and hot snacks & drinks, all on refrigerated and professionally maintained ice.

Call the Mammoth Ice Rink at (760) 934-2505, or visit www.mammothicerink.com for all the details. Have a blast this January at the Mammoth Ice Rink!

LA Kings Daryl Evans Triple Threat Camp – Jan. 29

Join LA Kings Alumnus and Radio Color Commentator Daryl Evans for a 3-day LA Kings Hockey Development Camp from January 29-31, 2016 at the Mammoth Ice Rink. The \$275 registration fee includes 2 hours of on-ice instruction, 1 hour of off-ice conditioning each day with a game on the last day of camp. Lunch and snacks will be provided all 3 days and includes a personalized Camp Jersey. This camp is appropriate for youth players ages 5-15. Register online only at LAKINGS.COM/mammothcamp. For additional information please email HOCKEY@LAKINGS.COM or call (310) 535-4472.

Public Service Announcements

We're Here to Get You There: Winter weather is not predictable - Be Prepared

The California Department of Transportation (Caltrans) and the California Department of Highway Patrol (CHP) want you to get where you're going safely this winter. The following are some driving tips that will help you prepare for winter driving conditions:

Winterize your car – Check your brakes, windshield wipers, exhaust system and heater/defroster to make sure they are in good working condition. Check your radiator fluid level and add antifreeze/coolant as needed. Replace wiper blades if needed. Add a winter formula windshield wiper fluid. Make sure your tires are properly inflated and the tread is in good condition

Check road conditions frequently –During Storms, call 1-800 ROAD (7623) or check the internet at <http://quickmap.dot.ca.gov>

Carry in your car - a flashlight with extra batteries, blanket, extra clothing, water and snacks, towel, gloves, ice scraper/deicer, shovel, small broom, spare key, sand/kitty litter.

Allow enough time - Slow down.

Don't panic - If you begin to slide while driving on snow or ice, slowly take your foot off the gas pedal and steer your vehicle in the direction you wish to travel. If you must use brakes and your vehicle is equipped with anti-lock brakes (ABS), apply firm steady pressure. If you do not have ABS brakes gently pump the brake pedal. Do not allow the brakes to lock up.

Black Ice – Black ice is nearly invisible. The temperature doesn't have to be below freezing in order for ice to form on road surfaces. Ice can form, especially when it's windy, when the air temperature drops below 40 degrees. Low or shaded areas surrounded by landscaping or with a nearby source of water, such as bridges and underpasses, can have icy spots.

Be observant - Do not pass snow removal equipment unless the operator directs you to.

Stay with your vehicle - If you become stranded stay with your vehicle. Conserve fuel while maintaining warmth and be aware of possible exhaust or carbon monoxide problems.

Chains – All vehicles, including those with four-wheel drive and snow tires are required to carry chains when traveling in areas that have chain control. Make sure they are the correct size for your tires and in proper working order. Chains must be installed on drive wheels. Know if your vehicle has front or rear wheel drive. Cable chains are acceptable, but may not provide as much traction as traditional chains. The speed limit when chains are required is 25, 30, or 35 MPH: it is posted and enforced. Chain installers may be available to help install your chains. They are not Caltrans employees. They are independent business people who are licensed to install chains. If you choose to use their services ask for a receipt that includes the installer's badge number. Chain installers are not allowed to sell or rent chains. When removing chains or installing chains, drive beyond the signs reading "Chain Control/End Chain Control." Pull over out of the lanes of traffic.

Chain Control Information

- R-1 – Chains or snow tread tires with a tread depth of 6/32" and a "M&S", "MS", "M+S", or "M/S" imprint on the tire's sidewall.
- R-2 – Chains required on all vehicles except four-wheel or all-wheel drives with snow tread tires on all four wheels. Engage the four-wheel drive in the 4-high.
- R-3 – Chains required on all vehicles; no exceptions.

Tires – To find out if your tire tread depth is at least 6/32", place a quarter into several tread grooves across a tire. With George Washington's head upright, if the bottom of his neck completely disappears, your tread depth is at least 6/32". If you can see any part of the bottom of George Washington's neck, your tread depth is at or below 6/32" and should be checked. Remember to check to make sure the tires have the imprint "M&S", "MS", "M+S", or "M/S" which indicate the tire is rated for mud/snow conditions. You may also see the mountain snowflake symbol on the tire.

High winds and blowing snow often cause zero visibility conditions. To protect travelers, the CHP may close the road temporarily until conditions improve. During winter storms spinouts and accidents happen closing the highway. Heavily traveled routes are particularly vulnerable to such closures. Caltrans may meter traffic during the storm, letting fewer vehicles into the area reducing congestion and giving motorists the option of turning around and waiting out the delay in a warm place.

Mountain Lion Activity in the Crowley Lake Area

On Tuesday, November 17, a mountain lion attacked a dog near Mountain View Drive. The dog was badly mauled but survived the attack. On Saturday, November 21, a mountain lion attacked and killed a llama near Willowbrook Road. We do not know if both attacks were by the same mountain lion.

Mountain lions are solitary and elusive, and their nature is to avoid humans. They are most active at dawn, dusk and night. Mountain lions prefer deer, but they also eat pets and livestock. In extremely rare cases, people have fallen prey to mountain lions.

Although mountain lions are neither threatened nor endangered, they are a specially protected species in California, and it is illegal to hunt or otherwise take a mountain lion absent specific circumstances. Mountain lions that threaten people are immediately killed. Those that prey on pets or livestock can be killed by a property owner after the required depredation permit is secured. Moving problem mountain lions is not an option. It causes deadly conflicts with other mountain lions already there, or the relocated mountain lion returns.

To keep your family and animals safe, please heed the following advice:

- Do not hike, bike, or jog alone and avoid hiking or jogging when mountain lions are most active.
- Don't leave small children or pets outside unattended.
- Keep a close watch on small children.
- Do not approach a mountain lion.
- If you encounter a mountain lion, do not run; instead, face the animal, make noise and try to look bigger by waving your arms; throw rocks or other objects. Pick up small children.
- If attacked, fight back.
- If a mountain lion attacks a person, immediately call 911.

- Don't feed deer; it is illegal in California and it will attract mountain lions.
- Deer-proof landscaping by avoiding plants that deer like to eat.
- Trim brush to reduce hiding places for mountain lions.
- Install motion-sensitive lighting around the house.
- Provide sturdy, covered shelters for sheep, goats, and other vulnerable animals.
- Don't allow pets outside when mountain lions are most active.
- Bring pet food inside to avoid attracting potential mountain lion prey.

Town's Owner-Occupant Housing Rehabilitation Program

California Department of Housing and Community Development ("HCD") has awarded the Town of Mammoth Lakes a \$186,047 grant to administer a Housing Rehabilitation Program. Mammoth Lakes Housing, Inc. (MLH) as the "Program Operator," will administer the program. The funding may be used by property owners to update homes, attend to deferred maintenance, and address energy efficiency.

Property owners in Mammoth Lakes can benefit from this subsidy in the form of deferred payment loans, below market interest rate loans, and grants. Owners may use program funds to rehabilitate their home for the following eligible improvements:

1. **Correct health and safety issues;**
2. **Converting to current Uniform Building Code;**
3. **Energy conservation improvements;**
4. **Extension of useful life** (includes repairing siding, sheet rock, painting, new flooring, new cabinets, new interior doors, gutters and foundation upgrades and repairs); and
5. **General property improvements.**

To qualify for program funding, an existing homeowner must occupy the home and the household income must be equal to, or less than the following:

1 person	\$43,250
2 person	\$49,400
3 person	\$55,600
4 person	\$61,750
5 person	\$66,700
6 person	\$71,650
7 person	\$76,600
8 person	\$81,550

Units must be located within the Town of Mammoth Lakes in order to qualify for rehabilitation funds. General property improvements that enhance the overall exterior appearance of the property will be limited to 15% of the rehabilitation loan amount.

Funds will be allocated on a 'first come, first served' basis until all funding is exhausted. All interested Mammoth Lakes property owners are encouraged to immediately contact Mammoth Lakes Housing for additional information, eligibility requirements, and an application.

Eastern Sierra Transit Expands Mammoth Express Route!

Eastern Sierra Transit is making your commute between Bishop and Mammoth a little easier. Starting Monday, July 6, 2015, there will two additional runs on the Mammoth Express route to accommodate an 8 to 5 work schedule in Mammoth. The bus will depart Bishop Kmart/Vons Center at 6:50am. There is a 5:20pm and now 7:00pm departure from Mammoth to accommodate those who may need to work a little later or want to stay in Mammoth for dinner.

The new departure times are:

North from Bishop - Kmart/Vons			
6:50am	7:30am	1:00pm	6:10pm

South from Mammoth - McDonalds			
7:50am	2:05pm	5:20pm	7:00pm

The Mammoth Express also stops at Tom’s Place (by request only) and at the Crowley Lake Community Center. All busses have bike racks available on a first come first served basis.

Commuting with Eastern Sierra Transit is very economical. There are several pass options available to reduce the cost of commuting even further. Discounted one-way fares and 10-puch passes are offered to seniors 60+, disabled, and youth 5-16.

MAMMOTH EXPRESS FARES

		Adult	Disc	10-Punch	10-P Disc	1 Week	2 Week
Bishop to:	Mammoth	\$7.00	\$6.00	\$63.00	\$54.00	\$52.50	\$98.00
Tom's Place to:	Mammoth	\$4.00	\$3.50	\$36.00	\$31.50	\$30.00	\$56.00
Crowley to:	Mammoth	\$3.00	\$2.50	\$27.00	\$22.50	\$22.50	\$42.00

Contact ESTA at 760.872-1901 ext. 20 for more information or visit the website at www.estransit.com

Reduction of Wildland Fire Fuels

Website: <http://www.mlfd.ca.gov>

Now that winter seems to have faded, the Mammoth Lakes Fire Protection District (MLFD) wants to remind residents of your responsibility to keep your property fire safe. Long term residents are aware of the wildland fire incidence that can occur around town and especially after dry winters and with windy, hot, dry summers. From just about anywhere in town one can see the results of previous fire activity and the scars that have been left behind.

Establishing and maintaining defensible space around our property is all of our responsibilities. We are all part of the team that will protect our community should we find ourselves in the situation of a wildfire threatening town. A well-maintained landscape enhances the beauty and value of any property— and just as importantly, the work serves as a fuel break. The goal is to keep your landscape lean, clean and green. The following steps can reduce your home’s vulnerability from the threat of wildfire and reduce your use of irrigation.

ZONE 1: 30 feet or more adjacent to the home and beyond attachments such as wooden decks.

- Within the first 10 feet of the home, use nonflammable landscaping materials (rock, pavers), or low level annuals or perennials less than 18 inches in height. There should be nothing flammable within 10 feet of the home.
- Keep this area lightly irrigated and free from dead or dry vegetation, combustible debris, and accumulations of leaf and needle litter. Plants should be carefully spaced, low growing and free of vegetation high in resins, oils, and waxes that burn easily. Mow lawns regularly.
- Prune all trees up 1/3 the height of the tree or so the lowest limbs are 10-15 feet from the ground. If adjacent to a structure, prune up to the eave level. Clearance shall be a minimum of 10 feet from chimneys/stovepipes. Keep roof surfaces clear.
- Thin out living vegetation 30 to 50% within this zone to decrease fire intensity and continuous path of travel.
- Allow space between tops of trees to reduce the risk of crown fire.
- Keep firewood stacks/piles at least 30 feet from the home. If this is not possible, from June 1 to September 30, cover entire woodpile with properly secured, fire resistive, California State Fire Marshal tagged tarp.
- Water plants and trees as needed to ensure they are healthy. Do not use finely shredded mulch and mulch should be wetted periodically.
- Areas around and above propane tanks need to be kept clear of vegetation for 10 feet.

ZONE 2: Approximately 30 to 100 feet from the home (if your property size permits).

- Leave approximately 30 feet between clusters of two to three trees, or approximately 20 feet between individual trees. Do not remove more than 1/3 of the crown density.
- Limit vegetation that serves as a link between low level vegetation and tree tops (ladder fuels).
- Prune trees so branches and leaves are at least 10-15 feet above the ground.
- Give yourself added protection with "fuel breaks," such as gravel walkways, and lawns.
- Remove any dead or dying material from yard and break up continuous patches of brush species to slow fire advance and decrease heat productivity.

Property owners who are unable to do this work themselves are encouraged to hire a licensed professional who both understand this information and can apply it to the property. MLFD maintains a list of qualified contractors that can perform this work.

Failure to comply with the regulations and clear your property in a timely fashion is not only expensive, but endangers the lives and homes of your neighbors, the community, and the firefighters who protect them.

If you would like more information on this or any other fire safety related matter, please feel free to contact the Mammoth Lakes Fire Department at (760) 934-2300.

Local Woodstove Replacement Program A Great Success - Limited Funds Remain

A successful Town of Mammoth Lakes woodstove replacement program comes to an end after replacing 150 older wood-burning systems resulting in the annual reduction of thousands of pounds of particulate matter. Mono County still has a small amount

of public benefit funds remaining, or enough to provide for several more installations across the County.

There has been a silver lining to Mono County's dry winter months: With funding from local government agencies, new and much more efficient and cleaner heating systems have been installed to replace old fireplaces and woodstoves throughout the area all winter long!

In addition to the economic benefits, air quality has been improved. Each new heating system emits far fewer pounds of wood-smoke emissions than the older log-burning systems. According to U.S. EPA figures, an open fireplace burning logs emits over 46 pounds of 'particulate matter' (PM) per ton of wood burned (average amounts vary with wood type and dryness), while a new fireplace insert burning the same wood emits about 29 pounds of PM emissions per ton burned. A new pellet insert emits only around 6 pounds of PM per ton of pellets burned.

With almost \$275,000 in 'Environmental Public Benefit Funds' provided by the local Air District, the Town of Mammoth Lakes was able to help fund the replacement of around 150 older wood-burning systems throughout Town, resulting in the annual reduction of thousands of pounds of PM as well as the reduction of carbon monoxide, sulphur dioxide, nitrous oxides, and volatile organic compounds.

And while the Town's Woodstove Replacement Program is closed, Mono County still has a small amount of public benefit funds remaining, or enough to provide for several more installations across the County. All funds are committed on a 'first come, first served' basis, and interested property owners are encouraged to immediately contact a participating woodstove retailer. Shared costs will be required.

To qualify for funding, an existing wood-burning system (woodstove or open fireplace) must be a building's primary heat source, it must be located within Mono County (apart from Mammoth Lakes), and it must fall under one of two types for designated funding:

- 1) For pre-1990 wood burning stoves and open fireplaces (not EPA compliant), \$1,500 may be available toward a new EPA Phase II wood-burning stove or fireplace, or \$2,000 toward a new pellet stove or gas system.
- 2) For woodstoves currently being used that are newer than 1990 (EPA Phase I or II-certified stoves, excluding pellet stoves), \$2,000 may be available toward a new, cleaner-burning pellet stove or gas heating system.

Participating retailers serving Mono County: Alpine Stove & Mercantile (760) 934-4416; Angelo's Stove & Chimney (760) 937-0860, Clean Sweep (760) 934-3453; High Country Lumber (760) 873-5874 - ask for Kim Jones; Manor True Value Hardware (760) 873-3106, and Batchelder Enterprises for new kerosene heating systems (760) 873-3800. For additional information, please contact: Lisa Isaacs, Administrator, Woodstove Replacement Program at (760) 914-0388.

Sierra Conservation Project and Town of Mammoth Lakes Partner to Expand Condominium and Business Recycling Program

The Sierra Conservation Project, Inc. (SCP) and Town of Mammoth Lakes are pleased to announce the expansion of the current condominium, commercial and recreational area recycling programs in the Town of Mammoth Lakes.

"This long-standing and successful partnership between the Sierra Conservation Project and the Town enabled us to submit and receive a substantial \$108,000 CalRecycle grant to expand on-going recycling programs within the community that benefits our residents, visitors and wildlife," stated Peter Bernasconi, Acting Public Works Director for the Town of Mammoth Lakes.

The Sierra Conservation Project is working in partnership with the Town of Mammoth Lakes and the Department of Resources Recycling and Recovery (CalRecycle) to provide an additional 30 bear proof containers to the remaining Condominium complexes in town that currently don't have a recycling program in place. In addition, CalRecycle grant funds will enable SCP to upgrade all commercial bear proof containers at restaurants, bars and other business locations in town, including the enhancement and placement of recycling infrastructure in the Lakes Basin and at key park locations in Mammoth Lakes, such as the Whitmore Recreation Area and Shady Rest Park.

Recyclable materials make up a large percentage of the waste produced in our residential complexes and businesses," stated Brian Robinette, owner of SCP. "These community-based programs aim to divert recyclable materials from our local landfill, while also educate our residents and visitors on the need for convenient recycling programs. We are confident that by providing start-up infrastructure for these complexes and businesses it will help make program implementation affordable and reduce the environmental impacts of each resident and guest," said Robinette.

To register for the Condominium Recycling Program, please visit www.recyclesierra.com or www.Townofmammothlakes.ca.gov.

For additional information on the **Condominium and Business Recycling Program**, please contact Sierra Conservation Project at (760) 914 0115 or e-mail Brian@recyclesierra.com.

Would You Leave A Loaded Gun on the Floor?

If you have children in your home, hopefully you would not! However, a new threat to the health of our children is emerging. These are e-liquids, sold legally in stores and online in small bottles that may be carelessly and casually left around the house, used for the regular re-filling of e-cigarettes.

The danger is from the nicotine content in these vials of "juice". Children can happen upon a vial and ingest it. These fluids come in flavors and bright colors that are attractive for kids – cotton candy, cherry, chocolate, and bubble gum among others. In addition, nicotine is absorbed through the skin, presenting a risk from a broken vial.

Electronic cigarettes, called e-cigarettes, are drug delivery devices originally designed to look like regular tobacco cigarettes. Now they are larger reusable gadgets that can be refilled with liquid, generally a mixture of nicotine, flavorings, and solvents. It is estimated that roughly four million Americans use these battery powered devices. They have been hailed by proponents as a way for addicted smokers to get their nicotine fix without sucking in the thousands of carcinogens found in traditional cigarettes.

However, the evidence of their effectiveness in assisting persons in weaning off their nicotine addiction is less than stellar. In addition, evidence is rapidly mounting that they are serving as a "gateway" for young teens into the world of nicotine addiction.

A recent study found nearly 1.8 million youth had tried e-cigarettes, and the number of middle and high school e-smokers doubled in one year. No wonder the industry targets the young who will be potential customers for decades to come! Their goal – to have the number of e-smokers quadruple in the next few years.

So how bad is the risk of exposure? Nicotine is a naturally occurring powerful neurotoxin, and in its potent liquid form, can be ingested or absorbed through the skin. Tiny amounts can cause vomiting, seizures, and even death. A teaspoon of even the highly diluted liquid can kill a small child.

A dose of 50 to 60 milligrams (mg) is potentially fatal for an adult; a 30 pound child could die from 1.36 mg. A vial of e-juice as commonly sold in retail stores is 17 milliliters, and with a 2.4% concentration would have 408 mg of nicotine. This year it is estimated that 1 to 2 million LITERS of liquid will be sold, much of it on the Internet. A liter of 10% concentration costs about \$110, a gallon \$195, and one company even offers a 55 gallon drum!

Nationwide, reports of accidental poisonings linked to e-liquids in 2013 jumped 300% from 2012, and is on pace to double again this year. Most cases are under the age of 4. A shop owner says that “We tell them that this stuff is poisonous. We do everything we can to protect the consumers, but at the end of the day, you leave a loaded gun on the floor, and your child gets hold of it, it’s not gonna be the gunmaker’s responsibility.” A CEO of e-cigarette franchises says ‘It’s the wild, wild west right now.’ There is no FDA regulation so far. So at the moment, if you are a user, your child has to go no farther than your own home to find a lethal dose of poison. Be aware of the risks, and keep vials out of reach. You are responsible for the safety of your children.

Governor Brown Declares Drought State of Emergency

With California facing water shortfalls in the driest year in recorded state history, Governor Edmund G. Brown Jr. today proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for these drought conditions.

“We can’t make it rain, but we can be much better prepared for the terrible consequences that California’s drought now threatens, including dramatically less water for our farms and communities and increased fires in both urban and rural areas,” said Governor Brown. “I’ve declared this emergency and I’m calling all Californians to conserve water in every way possible.”

In the State of Emergency declaration, Governor Brown directed state officials to assist farmers and communities that are economically impacted by dry conditions and to ensure the state can respond if Californians face drinking water shortages. The Governor also directed state agencies to use less water and hire more firefighters and initiated a greatly expanded water conservation public awareness campaign (details at saveourh2o.org).

In addition, the proclamation gives state water officials more flexibility to manage supply throughout California under drought conditions.

State water officials say that California’s river and [reservoirs](#) are below their record lows. Manual and electronic readings record the snowpack’s statewide water content at about 20 percent of normal average for this time of year.

The Governor’s drought State of Emergency follows a series of actions the administration has taken to ensure that California is prepared for record dry

conditions. In May 2013, Governor Brown issued an [Executive Order](#) to direct state water officials to expedite the review and processing of voluntary transfers of water and water rights. In December, the Governor formed a [Drought Task Force](#) to review expected water allocations, California's preparedness for water scarcity and whether conditions merit a drought declaration. Earlier this week, the Governor toured the Central Valley and spoke with growers and others impacted by California's record dry conditions.

Mammoth Lakes Police Department Implementing Reserve & Volunteer Program

In an effort to off-set some of the impact resulting from the loss of 7 sworn officers, the Mammoth Lakes Police Department has been moving forward on developing Reserve and Volunteer Programs, and evaluating various forms of technology to help make the MLPD more efficient and effective. The following are some of the programs the MLPD is moving forward on:

RESERVE OFFICER PROGRAM

On February 6, the Town Council approved the establishment of pay scales for Reserve Officers. The pay will be:

- Level 1 Reserve - \$25/hour
- Level 2 Reserve - \$23/hour
- Level 3 Reserve - \$20/hour

Providing pay for Reserve Officers will make the MLPD competitive with other local agencies that have reserve programs and serve as a recruitment and retention tool.

Anyone interested in learning more about the MLPD Reserve Program should contact Sergeant Marc Moscovitz at (760) 934-2011.

VOLUNTEER PROGRAM

Many police departments benefit from active volunteer programs where trained volunteers assist police personnel by staffing front counters, completing reports, and providing community patrols. Retired Sergeant Karen Smart has agreed to manage the MLPD's volunteer program. At some time in the future, information will be released about the types of volunteer work available and the selection criteria. Anyone interested in volunteering with the MLPD should be on the look-out for a news release announcing the start of the program.

TECHNOLOGY

The MLPD is moving forward with technological advances on several fronts. They include:

- An on-line reporting system where certain crimes can be reported on-line.
- An on-line crime and traffic report purchase program where victims of crimes and parties in traffic collisions can purchase copies of reports on-line.
- Access to surveillance cameras at the North Village.
- Surveillance cameras at the Volcom Brothers Skatepark.

The MLPD is also exploring other technology that will make the Police Department more effective in addressing crime, the fear of crime, and quality of life issues.

Free, Real-Time Property Information Now Available!

The Town of Mammoth Lakes and Mono County are proud to present ParcelViewer, the Town and County's official web-based property information system. This free, public, on-line service can be relied upon to provide convenient, accurate and up-to-date information, based on the official Assessor's data-base. Use ParcelViewer to view and print customized parcel information and maps, including:

- Zoning Information
- Property Addresses
- Complex Names/ Condo Unit Numbers
- Parcel Lines*
- Valuation Data
- Acreage
- Aerial imagery of surrounding properties and more!

Visit Parcel Viewer today at <http://gis.mono.ca.gov/parcelviewer/>

Transient Occupancy Tax (TOT) Frequently Asked Questions

Some of the most frequently asked questions about legal rentals and Transient Occupancy Tax (TOT) are:

What is a transient rental?

A transient rental is any unit that is occupied for the purpose of sleeping, lodging, or similar reasons for a period of 30 consecutive days or less in exchange for a fee or similar consideration.

Can I rent my unit as a transient rental?

Only some zones within the Town of Mammoth Lakes permit transient rentals. The following zones permit transient rentals:

- RMF-2 (Residential Multi-family 2)
- CL (Commercial Lodging)
- CG Commercial General)
- R (Resort, including master plan areas)
- SP (Specific Plan, including North Village and Clearwater)

This list is intended as a guide only. Although the above zones permit transient use generally, other regulations, such as those found in master plans, CC&Rs, or project conditions of approval may prohibit transient rental within a particular development. Generally, transient rental of single family homes is prohibited. A zoning map can be found on the Town's website.

What is transient occupancy tax (TOT)?

Transient occupancy tax, or TOT, is a 13% tax that is charged "for the privilege of occupancy of any transient occupancy facility." The tax is required to be paid to the operator of the transient occupancy facility at the time the rent is paid. It is the operator's responsibility to remit the TOT to the Town.

Do I need to pay TOT?

If you are renting your unit as a transient rental, even if it is only for one weekend a year, you need to pay TOT. This includes single family homes and other units that

are not permitted to rent nightly, but may be doing so illegally. TOT shall be remitted for each night the unit is rented.

Do I need a business tax certificate?

Yes, if you are renting your unit on a transient basis.

Do I need a transient occupancy tax certificate?

Yes. You are required to purchase a transient occupancy certificate for each rental unit to post in your transient rental property. This is included as part of Schedule E or F in the business tax certificate application.

What is the difference between a business tax certificate and a transient occupancy tax certificate?

Business tax is an annual tax and is required for all business activity. The transient occupancy tax certificate is a one-time purchase that is non-transferable. This certificate is required to be posted in your transient rental unit.

Do I need a business tax certificate if all of my rentals are handled through a reservation company?

If all of your rentals are handled through a reservation company, most reservation companies will purchase the transient occupancy tax certificate and collect and remit the TOT to the Town. You may wish to check with your reservation company to confirm that this is being taken care of. If you rent your unit by owner in addition to renting with a property management company, you are also required to obtain a separate business tax certificate and transient occupancy tax certificate.

How do I apply for a business tax certificate?

The Town's website contains information regarding business tax certificates, including an application for a business tax certificate: <http://www.ci.mammoth-lakes.ca.us/index.aspx?NID=182>. Transient Rentals fall under schedule F for condominium rentals and schedule E for hotels, motels, lodges, and campgrounds. This application can be mailed back to the Town, or submitted in person. The total cost for one unit is \$118.00 (\$65.00 application fee, \$5.00 planning review fee, \$25.00 fee to rent one unit, \$23.00 TOT certificate fee). Additional costs apply for additional units. Business tax certificates are required on or before the first day business commences; penalties will apply for late filings. If you have additional questions regarding this process please contact the Finance Department at (760) 934-8989 ext. 273.

Do I have a business tax certificate?

To find out if you have a valid business tax certificate on file, please contact the Finance Department at (760) 934-8989 ext. 273 or your property management company.

What is illegal rental activity?

Illegal rental activity is any rental activity that is not consistent with the Town's Zoning Ordinance, or any rental activity that is not compliant with the Transient Occupancy Tax Ordinance. This can include transient rental of units located in zones that prohibit transient rentals. It can also include transient rentals in a zone where it is permitted, but when the TOT is not remitted to the Town.

How can I report illegal rental activity?

If you suspect illegal rental activity, you may submit an anonymous tip via the Town's TOT hotline at (760) 934-8989 ext. 275 or on the Town's website via the Transient Occupancy Tax information page. Please include any information that you have that would substantiate the claim, along with the property address and owner's name if you have it. You may also email tot@ci.mammoth-lakes.ca.us. Note that emails are not anonymous, however, staff will do its best to keep your information private.

Questions & Anonymous TOT Hotline

If you have questions about TOT enforcement, or if you would like to report suspicious activity or rental advertisements please contact our anonymous hotline. The Town will follow-up on any reports submitted. The Hot Line Number is (760) 934-8989 ext. 275 or email your information to: TOT@ci.mammoth-lakes.ca.us.

Register for CodeRED

Residents of Mono County can register their cell phones to receive emergency CodeRED (reverse 911) alerts from Mono County. This is a county public service available to all Mono County residents so please tell your friends and neighbors in Mono County that they can register for this service. CodeRED announcements are for personal notification and will not replace CERT CAHAN notification. Here is how to sign register/sign up using the INTERNET:

- Go to monosheriff.org
- Scroll down left side panel to CodeRED community notification system;
- Click on it and follow directions.

Town Outdoor Lighting Ordinance

In 2003, the Town implemented an outdoor lighting ordinance to eliminate light pollution and preserve views of our starry skies. The outdoor lighting ordinance was adopted to encourage residents to administer a lighting system that not only promotes public safety and night-time ambiance but to maximize energy conservation. To eliminate glare and light trespass into neighboring properties and roadways, the outdoor lighting fixtures on your property should be shielded and re-directed to shine downward or changed out to a lower wattage. More information about responsible lighting can be found at www.crlaction.org.
