

The Yotelpad Project Workshop

The Town of Mammoth Lakes has received an application for a new mixed-use condominium-hotel project located at the northeast corner of Main Street and Minaret Road in the North Village Specific Plan area. The project consists of a 5-story condominium-hotel with 156 units (studio and 1-br units), 21 3-story townhomes (2-br units), 4,700 sq. ft. of restaurant space, and understructure parking for up to 185 vehicles with valet service. The project will include amenities such as a restaurant area with a large outdoor patio and terrace, fireplaces, a pool and hot tub, and bocce ball court. The project requires approval of a tentative tract map and major design review.

For additional information on this project, please visit the Town's website at:

www.townofmammothlakes.ca.gov/905/Yotelpad

Opportunity to provide early input on this project at a public workshop with the Planning & Economic Development Commission

**Wednesday, February 13th
After 2:00 PM**

**Town Council Chambers/
Suite Z**

437 Old Mammoth Road
