Friday, November 1

TIME

10am-4pm (Attendees are encouraged to arrive before 10am to sign in.)

LOCATION

Minaret Village Mall, Suite Z • 437 Old Mammoth Road

COST

Free of charge

INFO

This presentation provides an overview of the updates to the 2019 Energy Standards for residential and nonresidential projects that take effect statewide and in Mono County and Mammoth Lakes on January 1, 2020.

Contractors, builders, engineers, architects, building designers and other individuals who are in the construction industry are encouraged to attend. Attendees are eligible for ICC Continuing Education Units (CEUs). Course materials will be handed out at the presentation.

The event will feature nonresidential standards from 10am-12pm, and residential standards from 1-4pm. Refreshments will be served in the morning, and lunch will be provided from 12-1pm.

Instructor Javier Perez is an Energy Commission Specialist I in the California Energy Commission's Outreach and Education Unit. He has been with the Energy Commission for over 10 years, and specializes in residential HVAC and lighting requirements, helping to develop resources and training material on the requirements of the Energy Standards.
